

ANNUAL REPORT
POLICE DEPARTMENT
MILWAUKEE, WISCONSIN

FOR THE YEAR

1927

During the year 1927 there were 9477 criminal complaints made to this department, as compared with 9618 during the year 1926, a decrease of 141 complaints.

There were 1012 burglaries reported in 1927, compared with 899 during 1926, an increase of 123.

Forgeries were on the increase, there being 797 complaints in 1927, compared with 746 complaints in 1926.

Larcenies increased from 4097 complaints made in 1926 to 4550 complaints during 1927.

Murders decreased from 19 in 1926 to 11 during the year 1927, all of which were cleared, giving a one hundred percent clearance of such cases.

Of the 9477 criminal complaints made during 1927, 2181 cases were cleared or 37%, which is 3% less than the total number of clearances of criminal cases during 1926.

The total value in monies and property reported lost through crime during 1927 was \$1,413,543.00, of which amount \$1,062,589.00 was recovered, or 75%.

CRIMINAL IDENTIFICATION

During the year 1927, 1082 prisoners were photographed and fingerprints taken in the Bureau of Identification, an increase of 188 as compared with the year 1926. Of the persons who were over 35 years of age, namely 800, 4800 prints were made; and of those who were under the age of 35, namely, 282, 1410 prints were made, a total of 6210 photographic prints made of prisoners. Twenty-two new photographs were taken of former offenders and 391 photographs made for other police departments; 193 made for local newspapers; 68 photographic prints made of scenes of murder cases; 50 photographs taken of automobile accidents for the Traffic Bureau and 298 miscellaneous photographs taken.

AUTOMOBILE DIVISION

There are on file in the Automobile Division approximately 100,000 automobiles stolen from various parts of the United States and Canada. During the year 1927, 1830 automobiles were reported stolen in Milwaukee, of which number 1734 have been recovered, leaving 96 still missing. Thus 95% of our stolen automobiles during 1927 have been recovered. This is the highest percentage of recoveries of stolen automobiles in the history of Milwaukee. The number of arrests of automobile thieves was 138, as compared with 140 such arrests during 1926.

During the year 1927 there were listed in the automobile division in the Bureau of Identification 10,282 automobiles stolen in other cities, necessitating the indexing and filing of 18,650 cards. From local second-hand dealers there were reported to this division the purchases of 6800 second-hand automobiles, which were indexed and filed in the Bureau of Identification on 9100 index cards. The filing of our local stolen cars required approximately 2400 cards, making a total of 30,150 index cards which had to be written and filed in order to record correctly the situation of stolen and second-hand automobiles.

In addition to the recovery of 1734 of the automobiles stolen in Milwaukee during 1927, there were 21 automobiles recovered which were stolen during 1926 or before, and 111 automobiles recovered which were stolen in other cities, making a total of 1866 stolen automobiles recovered by the Milwaukee Police Department in 1927.

PAWN DIVISION

The Pawn Division of the Bureau of Identification has produced some very satisfactory results, as shown by the following tabulation of the value of property recovered:

Month	Items Rec'vd.	Value
January	12	\$ 852.25
February	13	752.90
March	14	981.00
April	18	877.25
May	12	469.00
June	20	1050.50
July	16	541.90
August	12	397.70
September	9	749.00
October	14	1354.00
November	7	557.50
December	18	955.00
Total	165	\$9,538.00

STENOGRAPHIC DIVISION

All criminal correspondence of the Police Department of the City of Milwaukee is written and filed in the Bureau of Identification. During the year 1927 there were 3149 letters and 1912 telegrams written, and 215 long-distance telephone calls recorded, making a total of 5276 pieces of correspondence written and filed in this office, exclusive of hundreds of circulars filed. The indexing required the preparation and filing of about 13,000 cards. This vast amount of correspondence is filed and recorded in a detailed cross-index system, making it possible to locate any letter or piece of correspondence at a moment's notice.

The stenographic department of the Bureau of Identification also compiles a daily police bulletin, which imparts information of the operations of criminals within the corporate limits of the City of Milwaukee, and also furnishes information concerning thieves wanted and people who have been reported as missing. This bulletin is compiled every day of the year; and during 1927 there were approximately 400,000 copies distributed to the members of the department, the various park police, the Shorewood Police Department and the officers of the Detention Home. The results obtained through the publishing of the daily bulletin have been very gratifying, and numerous arrests were effected through this system, as well as the locating of missing people and the recovery of stolen property, particularly automobiles. Prior to the publication of the daily bulletin the uniformed patrolmen had no knowledge of criminals wanted by this department, but since its compilation he possesses a detailed account of information which aids him in performing his duties as an officer of the law.

The stenographic division of the Bureau of Identification also took 338 verbatim criminal statements during the year 1927, most of which were transcribed in triplicate. When considering this phase of the work we must keep in mind the time it takes to transcribe the large volume of shorthand notes accurately.

COMPLAINT REPORTS

The complaint report division of the Bureau of Identification recorded, filed and indexed 11,129 criminal complaints, including complaints of crimes which occurred outside of our jurisdiction, during the year 1927. These complaints, after being properly assigned to detectives for investigation, are delivered to the Bureau of Identification within twenty-four hours after they have been made out, when the detailed work on them takes place. All information pertaining to the pawn division is immediately transferred from the complaints to the books in the pawn division, where the various items are listed in detail and then checked against the reports of the pawnbrokers and second-hand dealers. All information pertaining to automobiles is immediately put on file in the automobile division, and later in the day the greater part of the daily bulletin is compiled from these complaint reports. The reports are then classified according to districts, and a record of them is sent to the captains of police in order to give them a knowledge of what has occurred in their districts daily.

After the complaint reports have thus been handled, they are indexed according to the name of the complainant, given a department number, indexed under the officer's number and also under the classification of crimes, and then permanently filed according to the department number. The volume of work in connection with the keeping up of this can easily be conceived when we realize that 11,129 complaints were so handled. However, the results have been very gratifying.

DETECTIVES DAILY REPORTS

Prior to the year 1922 there was no system which showed the work done by the individual members of the Detective Bureau. It was a "catch-as-catch-can" proposition when it came to estimating the worth of an individual detective, and the estimate given a man was far from even approximate. Under the new system installed in this department, the detective makes a daily report of the work done by him for the past twenty-four hours. This report shows all new arrests made by him, court attendance, accounts of investigations made, property recovered, cases cleared, disposition of cases and arrests, together with any special duties which were performed. These daily detectives' reports are then sent to the Bureau of Identification, where they are carefully checked over and the figures transferred to monthly cards. The totals of the items each monthly card contains are transferred to an annual card at the end of each year, so that the work of every detective is classified in detail on an annual card, which at a moment's notice furnishes the reader with a very good comprehension of the individual's work performed during the entire year. This Bureau handled approximately 21,600 daily detectives' reports, 720 monthly detectives' reports, and about 60 annual detectives' reports in 1927.

MISSING PEOPLE DIVISION

During the year 1927 there were 1465 people reported missing in the City of Milwaukee, of which 1422 have been reported accounted for, leaving the small number of 43 persons still missing.

This work not only necessitated the filing and indexing of the reports, together with the duplication of detailed descriptions on the daily bulletin, but made necessary the interviewing of many of the relatives of the missing people.

MISCELLANEOUS

During the year 1927 there were 2103 criminal warrants indexed and filed. Under this system the index card is not destroyed after a warrant has been served or withdrawn, but is put into a separate compartment for reference. Another compartment is maintained for listing warrants which are in the hands of officers or for any reason not in file, thus making it possible for the Bureau to state positively at all times whether or not a man is wanted here. It is needless to mention the value of the system of indexing and filing criminal warrants.

All miscellaneous circulars are indexed and filed in the Bureau of Identification. Every circular giving any kind of information which might be sought at some future date is indexed and filed with the correspondence. In other words, all information received by the Bureau of Identification is systematically recorded, and nothing is thrown away.

In 1927 there were 536 death and accident reports filed; 279 prisoner releases filed, most of which were also made out in this office; 365 reports made to the Chief of Police; and about 1200 reports to the district commanders. Reports on applications for second-hand and pawn dealers' licenses to the number of about 190 were indexed.

T R A F F I C

Following is a brief review of the Traffic Accidents in the City of Milwaukee during the year 1927, as reported to the Traffic Bureau:

Analysis of accidents

This report is prepared primarily to present an analysis of all traffic accidents during the year 1927 which have been reported to the Traffic Bureau of the Police Department. The accidents in this report have been grouped by nature and cause, and in the paragraphs following, a careful comparison is shown with similar analyses prepared in the previous years.

The analysis includes 12,135 traffic accidents of all kinds as compared with 11,834 accidents in 1926 and 9,344 in 1925. This is an increase of 2.5% over 1926, as compared with an increase of 27% in 1926 over 1925. Taking into consideration the increasing congestion, due to the number of vehicles in operation, the net increase is decidedly small in comparison with increases as shown in the past annual reports.

The net increase, as noted above, is exceptionally small, but the following tabulation is somewhat out of the ordinary with regard to the ratio each bears to the total number of accidents:

	NUMBER OF ACCIDENTS				% of Total			
	1927	1926	1925	1924	1927	1926	1925	1924
Intersection Collisions	4301	4039	3261	2408	35.5	34.1	34.9	34.1

Totals	** 12135	11834	9344	7100	100.0	100.0	100.0	100.0

**NOTE. Since approximately July 1, 1927, the minor accident reports (reports of property damage not exceeding \$25.00) are contained in the foregoing tabulation.

INCREASE OF AUTOMOBILES FROM THE YEAR 1921 TO 1927 INCLUSIVE

Year	Thousands of Cars	1000's over Previous Yr.	% of Increase
1921	50	--	--
1922	61	11	22
1923	78	17	28
1924	106	28	36
1925	118	12	11
1926	133	15	12
1927	135	9	7½

SUMMARY OF FATAL ACCIDENTS BY CAUSE

Cause	Number		
	1927	1926	1925
Intersection Collisions	13	14	7
Violation of Law	8	5	10
Carelessness of Vehicle Driver	2	9	3
Condition of Vehicle or Road	1	6	4

(continued)

Incompetency of driver	2	-	1
To avoid another accident	1	-	-
Children playing in street	19	17	19
Jaywalking or running for street			
Car	44	37	26
Struck by vehicle turning corner	6	3	1
Pedestrian intoxicated	-	-	1
Walking through traffic	-	-	2
Miscellaneous	4	11	2
Cause undetermined	10	29	20
Totals	110	131	101

The number of accidents per injury decreased two-tenths of one percent during the past year, but the number of accidents per death increased twenty. In 1924, the analysis showed one death to every 26 injuries, in 1924 one death to every 34.6 injuries, in 1926 one death to every 39.3 injuries, and in 1927 one death to every 37.6.

During the year 1927, 110 persons lost their lives as the result of traffic accidents, as compared with 131 in the year 1926.

Total number of arrests for traffic violations in 1926	15,415
Total number of arrests for traffic violations in 1927	15,888
Increase	473

GAMBLING

During the year this Department received 379 complaints relative to gambling being permitted, resulting in the arrest of 402 persons, of which 340 were charged with being Inmates of Gambling Houses, and 24 for Keeping Gambling Houses; for all other gambling cases there were 38 arrests.

PROHIBITION

The Department received 1747 complaints relative to liquor law violations, resulting in the arrest of 798 persons. For Drunkenness there were 7319 arrests, or 636 increase over the previous year. In addition, 515 persons were arrested for Operating an Automobile While in an Intoxicated Condition, an increase of 48 over the year 1926.

VICE

There were 1592 complaints relative to vice conditions existing in the city, resulting in the arrest of 2105 persons, of which 540 were charged with Keeping Disorderly Houses and 4 for Keeping Houses of Ill Fame, and 1331 arrests for Being Inmates of said houses. In addition, 230 arrests were made for all other vice.

TRIAL BOARD

There were 74 members of the department brought before the Police Trial Board, resulting in 14 officers being dismissed from the service, 42 receiving a lighter penalty, 7 were reprimanded, 4 found Not Guilty, and 1 officer was demoted to a lower rank.

EXAMINATIONS

During the year, six examinations were conducted for the position of patrolman in this department. 378 applicants participated, of which number 111 passed a satisfactory examination and 267 failed. Of the number that passed, 9 were rejected by the Medical Examiners, 2 were stricken from the eligible list by the Board of Fire and Police Commissioners, 38 were appointed, 11 are still pending, and 1 declined to take the medical examination.

MISCELLANEOUS SERVICE

During the year 1927, 5,596 applications for miscellaneous licenses were investigated by this department, including soft drink parlors, pool halls, dance halls, theater, taxicab drivers, taxicab owners, etc. 12,837 defective sidewalks and streets were reported to the Department of Public Works, 1,393 lost children were restored to their parents, 30,673 official city notices were served, 158,395 official letters were delivered, 1,984 lodgers were accommodated at the various station houses, 26 destitute persons were cared for, 6 persons were rescued from drowning, and 24 drowned bodies were recovered. 37,281 letters and communications were investigated, 438 doors were found open and reported to the owners, 1,576 persons received first-aid treatment from members of the department.

In 1927 the City Treasurer turned over to this Department, \$217,801.62 in delinquent personal taxes for the year 1926 for collection. \$145,773.58 of this amount was collected and turned over to the City Treasurer.

POLICE ALARM DIVISION

The telephone system of the department embodies 19 trunk lines connected directly with the local telephone company. The switchboards installed for the operation of the Department's business, connect the different bureaus and stations with 86 extensions or local lines. For this service 3 multiple switchboards are in operation. Approximately 1,175,000 calls were handled by the Alarm Bureau over the trunk lines. In addition, 2,106,792 calls were handled over the department's own system.

AUTOMOBILE PATROLWAGON AND AMBULANCE SERVICE

During the year 1927, the automobile patrolwagons responded to 15,573 calls, resulting in the conveyance of 25,399 prisoners. In addition, 1015 injured or sick persons were conveyed, 212 disturbances were suppressed, 23 fire alarms responded to, 12 false alarms were responded to, and 562 miscellaneous and incidental calls were made.

The Police ambulances responded to 3,798 calls, of which 474 cases did not require service. There were 3,750 persons, who were injured or sick, conveyed to hospitals or private homes.

POLICE TRAINING SCHOOL

The Department conducts a school of training to which all members are required to attend. The course of instruction includes drill, lectures pertaining to criminal law, City Ordinances, Law of Arrest, Court Procedure, Rules of the Department, Discipline, Courtesy, Observation, and a thorough training in administering First-Aid to injured persons. Newly appointed members are required to attend the school for three hours each morning for the first 30 days for theoretical training, and they also travel with an older member for five hours each evening to receive practical experience. After the 30 day period, all members are required to attend the school once a week, and examinations are given at intervals to determine their efficiency. During the year 1927, 1,576 persons received minor First Aid treatment from members of the Department, and 241 lives were saved.

MEDICAL BUREAU

The Medical Division of this Department consists of 5 Police Surgeons. During the year 1927, 892 cases of sickness and injury among the members of the Department were investigated, and where such injury resulted in the immediate performance of duty, medical attention was given. When a member of the department reports sick or injured, a member of the Medical Bureau is immediately assigned to the case, to ascertain the nature of the sickness or injury, and also estimate the possible duration of such sickness or injury. In all cases of sudden deaths, suicides or attempted suicides, and fatal accidents, members of the Medical Bureau are detailed to make an investigation.

CO-OPERATION WITH OTHER POLICE DEPARTMENTS

This Department realizes that thorough police co-operation with other cities is an important essential in the administration of any progressive police department, and during the year 1927, the members of the force continued to extend the fullest co-operation to other jurisdictions in matters which were brought to their attention. To verify this statement, the statistics show that 349 fugitives from justice were apprehended and delivered to authorities from other places.

O B I T U A R Y

GEORGE SCHROEDER

Appointed Patrolman	November 1st, 1909
Promoted to Desk Sgt.	December 1st, 1912
Died	August 26th, 1927
