Obituary	32

SUMMARY OF ACTIVITIES

During 1935, Milwaukee again attracted nationwide attention with a record of no murders for the first nine months of the year and only one murder and one non-negligent manslaughter for this entire year. Both cases were cleared, and the perpetrators of the crimes are now serving sentences in the Wisconsin State Prison.

For the third year in succession, Milwaukee has also maintained the lowest motor vehicle death rate for cities of Group I (over 500,000 population) in the National Safety Council's tabulation.

The number of assault and robbery complaints is generally accepted as a good index for judging crime conditions in a community. Milwaukee's enviable record for this crime is as follows:

1930	190
1931	140
1932	124
1933	116
1934	65
1935	39

The other major crimes also show a notable decrease over 1934, the lowest in the last ten years. Burglary complaints dropped from 842 in 1934 to 742 in 1935. Grand Larceny cases decreased from 411 to 264, and auto thefts from 835 to 786.

Labor trouble and strikes were again prevalent during 1935, continually requiring special details of patrolmen and making it necessary for the men to put in many hours overtime. Fortunately there were no fatalities and few injuries, an excellent record considering the many unruly crowds that assembled.

The program and curriculum of the Police Training School were expanded during the past year and new modes of instruction introduced. A new 16-mm. sound motion picture machine was purchased and various sound films on the subjects of traffic, safety, first aid, explosives, etc., were shown to the men. Motion pictures were also taken by the Department of various phases of the patrolman's work, augmenting the material developed in class lectures and discussion. Experts from outside of the Department lectured to the classes on criminal pathology, explosives, first aid to the injured, etc.

Outside cars recovered -	-	-	68	61
Total value of cars stolen -		-\$184,281	\$152,459	
Total value of cars recovered				
(a) Local		\$180,936	\$148,479	
(b) Outside		34,303	22,365	
Percentage of Recoveries			96.8%	97.0%

215 automobile thieves were arrested during the past year, as compared with 203 during the year 1934.

Of the 25 cars unrecovered, there were 18 cars ranging in value from \$5.00 to \$75.00 and only 7 cars valued above \$75.00.

BUREAU OF IDENTIFICATION

There were 6,425 prisoners brought to the Bureau of Identification during the year 1935, as compared with 5,618 during the year 1934, an increase of 807 prisoners, or 14 per cent. These prisoners were fingerprinted, photographed, Bertillonized, and recorded as follows:

	<u>1934</u>	<u>1935</u>
Prisoners fingerprinted and photographed, including 125 who were Bertillonized - - -	1443	1414
Prisoners fingerprinted only - - - -	2458	3312
Prisoners brought to the Bureau who were identified as having been fingerprinted at the Bureau prior to 1935 - - - -	<u>1717</u>	<u>1699</u>
<u>TOTAL</u> number of prisoners brought to the Bureau	5618	6425

Of the 1,699 prisoners who were identified as having previously been fingerprinted at our Bureau, 1596, after being questioned at the Bureau, admitted their previous records here; however, additional fingerprints were taken of these prisoners to verify their criminal records. Of the 1699 prisoners, 103 gave fictitious names and denied being arrested before, but were identified through their fingerprints as having criminal records.

During the past year 263 identifications were made through fingerprints received by mail from police jurisdictions in other cities.

During the year the Bureau was called upon to fingerprint 15 unidentified bodies at the County Morgue, of which number 5 were identified through their fingerprints and 8 by relatives or friends.

The total number of prisoners handled during the year 1935 required the taking of 17,141 fingerprint cards, of which number 10,115 were sent to other bureaus of identification, 4,726 were placed in our master fingerprint file, and the balance of 2300 were placed in our duplicate fingerprint file.

In addition to the number of local fingerprints filed, this Bureau received 3708 fingerprint cards from other police jurisdictions which were properly classified and placed in our file, making a total of 8,434 fingerprint cards added to our file during the year.

During the year, the Bureau was called upon 108 times to examine premises where crimes have been committed, with a view of obtaining fingerprints, in an effort to establish the identity of the perpetrator; and in 150 cases objects were brought to the Bureau for examination by members of the Detective Bureau, making a total of 258 of such cases. The total amount of time consumed by latent fingerprint work during the past year was 503 hours.

In connection with crimes where latent fingerprints were obtained, many persons were eliminated as suspects after their prints

were identified as being those of the complainant or some other person who had lawful access to the premises. However, in 8 instances positive identifications were made through latent fingerprints which resulted in the apprehension of the criminals.

IDENTIFICATIONS MADE AT OTHER BUREAUS THROUGH
FINGERPRINTS CONTRIBUTED TO OUR DEPARTMENT.

During the year, 5141 fingerprint cards (1414 photographed here for the first time, 415 with photographs of previous offenders, and 3312 "roughs") were sent to the Federal Bureau of Investigation, and 1414 fingerprint records with photographs were sent to each of the three other bureaus. Identification notices containing 923 aliases were received from these bureaus, as follows:

Federal Bureau of Investigation, Department of Justice, Washington, D. C. - - - - -	1,812
State Department of Public Safety Bureau of Identification, East Lansing, Michigan - - - - -	202
Ohio State Bureau of Criminal Identification, London Prison Farm, London, Ohio - - - - -	145
Bureau of Identification, Police Department, Chicago, Illinois - - - - -	42
	<hr/>
	2,201

This department also received identification notices of subjects arrested in other jurisdictions during the year who have been fingerprinted by this department previous to January 1, 1935, as follows:

Federal Bureau of Investigation, Department of Justice, Washington, D. C. - - - - -	1,832
State Department of Public Safety, Bureau of Identification, East Lansing, Michigan - - - - -	312
Ohio State Bureau of Criminal Identification, London Prison Farm, London, Ohio - - - - -	187
Bureau of Identification, Police Department, Chicago, Illinois - - - - -	3
	<hr/>
	2,334

During the past year this division made 19,130 photographic prints as compared with 14,413 for the previous year. Following is a detailed tabulation of the work performed during the year 1935:

	<u>1934</u>	<u>1935</u>
New prisoners photographed - - - - -	1,443	1,414
Copies of new prints - - - - -	7,215	7,070
Prints for Bertillon file - - - - -	167	125
New Photos of former offenders - - - - -	187	209
Photos sent to other jurisdictions - - - - -	1,569	1,900
Photos of murder scenes - - - - -	64	33
Photos of fatal accidents - - - - -	511	439

Extra photos for special investigations -	-	-	110	100
Photos of fingerprints at scenes of crime	-	-	547	576
Replacements for Criminal Gallery	-	-	13	2
Photos of members and employees of the department, both old and new	-	-	47	198
Photos made for newspapers	-	-	189	193
Miscellaneous photos (persons wanted for crimes, missing persons, unidentified persons, etc.)		1,147	2,200	
Photostatic copies of miscellaneous matter	-	2,543	5,876	
Photos for Immigration Department	-	-	7	54
Photos for U.S. Internal Revenue Department	-	-	97	155
TOTAL number of prints made	-	-	14,413	19,130

To assist members of the Department in the preparation of cases of local prisoners who have previous records, this Bureau, at the request of such officers, compiled and typed 754 criminal records on official stationery for introduction in court. In addition to this figure, 60 records, previously compiled, were furnished officers, making a total of 814 records used for presentation in our criminal courts in aiding the prosecution and disposition of cases before such courts.

During the past year, 1,760 handwriting cards were filled out by prisoners. These cards, together with photostatic copies of checks, anonymous letters, etc., are classified, indexed, and filed according to the Lee and Abbey system of classification. There were 4,163 such cards and photostatic copies added to the file during 1935, making a total of 18,551 handwriting specimens now in this file. In proportion to the growth of this file, additional special guide cards have been added, and during the past year, 129 such guides were made, making a total of 2,209 in the file at the present time. During the year there were 8,768 index cards filled out and filed alphabetically in connection with the handwriting specimens contained in this file.

The results obtained from questioning prisoners at the Bureau of Identification who had not previously been fingerprinted at the Bureau were very gratifying; 76.5 per cent of such prisoners admitted previous arrests for felonies and misdemeanors. These admissions were written in our record books and carefully checked when compiling records of such prisoners.

Of the total number of prisoners, 6,570, brought to the Bureau of Identification during the year, 3,019, or 45.9 per cent, were found to have previous fingerprint records.

Of the 1,414 prisoners who were photographed by this Bureau during the year for the first time, 363, or 25.6 per cent, were reported by the Federal Bureau of Investigation, Department of Justice, Washington, D.C., as having criminal records elsewhere.

The practice of contributing fingerprints to the Federal Bureau of Investigation, Washington, D.C., of all transients who were arrested here on minor charges, such as vagrancy, investigation, etc., and who were not photographed here, was inaugurated during the year 1933, and has shown gratifying results, as 2,507

transients were brought to the Bureau of Identification during the year 1935, and 1,098, or 43.8 per cent, were reported as having previous criminal records.

A large number of transient criminals arrested here denied having previous records, but when these subjects were arrested here for the second time, we were in possession of identification notices received from the Federal Bureau of Investigation, containing their complete criminal records which assisted in substantiating a charge of vagrancy, as a result of which they were either sent to the House of Correction, or ordered out of the city.

VICE SQUAD

There were 53 complaints relative to vice conditions in the city received by the Vice Squad during 1935, as compared with 101 of those complaints received during 1934. There were 487 arrests for prostitution and commercialized vice, compared to 520 for 1934. There were 19 complaints of gambling received during 1935, and 629 arrests for gambling. There were 9 complaints of fortune telling for gain, and 8 arrests.

MISSING PERSONS

In 1935 there were 1053 persons reported missing locally, of which all but 36 have been located. Twenty-four of those still missing are males and 12 are females.

Of the 36 persons still missing locally, 3 are young women wanted by the Wisconsin Industrial School for Girls for escaping or for violating parole, 5 are men wanted on Abandonment warrants, 2 are men wanted on Larceny warrants, 1 is a youth who ran away from the St. Charles Home for Boys, and 5 others were reported after they had been gone for periods ranging from a few months to 25 years, for the reason that relatives hoped they might locate them through our daily reports of missing persons broadcast over Radio Station WTMJ.

POLICE RADIO

The police radio system has now been in operation for five years. The city is divided into 19 uniform radio squad car districts, and 15 radio motorcycle beats. Besides this there are nine Detective Bureau radio squad cars, and one Traffic Bureau special investigation squad car. The Department has a total of 95 mobile units radio equipped; 44 cars, 50 motorcycles and 1 police boat.

The Sheriff's Department and all the police departments of the county, with the exception of South Milwaukee, have radio-equipped vehicles which may be reached through the facilities of WPKD, giving complete coverage to the entire county.

Extensive tests were made during the past year as to strength of signals in various parts of the city, in anticipation of relocating the transmitter. The Federal Communications Commission has assigned call letters W9XHY to the portable 400-watt continuous wave experimental station operating on 2450 kc. which is being used in this research.

The portable transmitter was designed and constructed in the Department's radio shop. The shop also installed radio receivers in two additional cars and in 13 new replacement cars. These sets, also built in the shop and developed after extensive experimenting, have proven very efficient and every unit is interchangeable. The radio shop, located in the same building as the station, provides 24-hour maintenance service for the equipment.

TABLE X.
MISCELLANEOUS SERVICES

1935

HOMICIDES

MURDER

Thomas Jefferson Lynch, colored, age 35, 615 West Juneau Avenue, died at the County Emergency hospital at 10:43 P.M. on September 7th, 1935, as a result of first and second degree burns suffered when his wife, Alma Lynch, colored, age 32, set fire to the bed in which he was sleeping, after saturating it with gasoline at 9:35 P.M., September 5th, following an argument. Alma Lynch was sentenced to life imprisonment at the Wisconsin Prison for Women, Troyceedash, Wisconsin, on October 3rd, 1935, on a charge of First Degree Murder. CLEARED.

MANSLAUGHTER

Mary Kowalski, age 29, 2210-A South 5th Place, died as a result of injuries received when she was beaten by her husband, Casimir Kowalski, age 35, at 4:30 A.M. August 11th, 1935, when he came home intoxicated and started an argument. Casimir Kowalski was found guilty of First Degree Manslaughter and sentenced to 5 to 10 years at the Wisconsin State Prison on August 24th, 1935. CLEARED.

JUSTIFIABLE HOMICIDE

William Strobel, age 21, 1822-A West Vliet Street, while driving a stolen car and being pursued by a squad car, jumped out of the car and attempted to escape. Petrolman Ernest Sommerfeld, one of the officers assigned to the squad car, ran after Strobel, and when he refused to halt after the officer's repeated warnings, Sommerfeld shot him and fatally wounded him. The shooting occurred at 3:20 A.M. August 5th, 1935 in an alley at the rear of 3522 West Kilbourn Avenue. A coroner's jury returned a verdict of justifiable homicide.

SUICIDES AND ATTEMPTED SUICIDES AND SUDDEN DEATHS

During 1935 there were 82 cases of suicide and 113 attempts at suicide. There were 216 investigations made in cases of sudden death, involving 166 males and 50 females.

	10634	10458	9347	8997	100.0	100.0	100.0	100.0

NOTE: The total number of accidents for the year 1935, as shown in the above tabulation, differs in amount by 4,591 with the total figures in our report in Table XII (A), Page 22. This difference is accounted for by the fact that since July 1, 1927, the minor accident reports (where property damage does not exceed \$25.00) are reported, but are not figured in on the detailed report.

O B I T U A R Y

JOHN LUGERT

Appointed Patrolman - - March 12th, 1914
Died - - - - - January 3rd, 1935

HARRY PIESKE

Appointed Patrolman - - June 4th, 1921
Promoted to Patrol Sgt. March 2nd, 1929
Died- - - - - June 27th, 1935

Motorcycle Sergeant Harry Pieske on
June 15th, 1935 at 12:50 A.M., while es-
corting the 105th Cavalry, who were mov-
ing through Milwaukee to camp, was struck
by an automobile at N. 34th and W. Capitol
Drive. He was conveyed to the Emergency
Hospital and died there at 3:05 A.M. on
June 27th, as the result of the injuries.
