#### ANNUAL REPORT FOR 1940

Crime in Milwaukee during 1940 showed a slight increase over 1939, following the increasing trend in crime throughout the nation. During 1940 there were nine murders and two manslaughters as compared with six murders and two manslaughters during the previous year. All of the 1940 cases were cleared by arrest. During 1940 there were 57 cases of Assault and Robbery reported, a decrease of 13 cases from the previous year. Complaints of Burglary during the current year totaled 592 compared with 495 for 1939. There was a slight increase in automobile thefts over the previous year, a total of 560 cars being stolen in 1940 compared with 509 during 1939. However, the percentage of automobile recoveries was greater during 1940, 98.3% being recovered during the current year compared to 97% during 1939.

The Department obtained during the year two additional combination ambulance and patrolwagons, making a total of four such vehicles now in service. These have proved very satisfactory, and, serving a dual purpose, have increased the available ambulance facilities without increasing costs. With these vehicles equipped as ambulances at additional locations, faster service is now provided in many outlying sections of the city.

A W.P.A. project which was established during 1938 in the Milwaukee Police Department for the purpose of creating a single finger-print file was continued during the current year. Another phase of this project consisted of copying on 4 x 6 cards from books the record of arrests made during the period from 1921 to 1929. These records are being copied on file cards to correspond with the arrest records system established in 1930.

On September 6, 1939, the President of the United States in a formal statement designated the Federal Bureau of Investigation to take charge of investigative work and to coordinate the efforts of the various law enforcement agencies in matters affecting National Defense and the Internal Security, and called upon all law enforcement agencies to assist the Federal Bureau of Investigation in this task. In compliance with the President's request, this Department has cooperated with the Federal Bureau of Investigation in the investigation of cases involving espionage, sabotage, subversive activities, and violations of our neutrality regulations. In addition, investigations have been made in matters concerning National Defense and Internal Security for the Army, Navy and Marine intelligence services, the Coast Guard, the Immigration and Naturalization Services.

#### BUREAU OF IDENTIFICATION

A total of 5,508 prisoners were brought to the Bureau of Identification during the year 1940, as compared with 5,763 during the year 1939, a decrease of 255 prisoners, or 4.2 per cent. These prisoners were fingerprinted, photographed, and recorded as follows:

	Year 1940	Year 1939
Prisoners fingerprinted and photographed	1735 1776	1521 2257
been previously fingerprinted here	1997	1985
TOTAL number of prisoners brought to Bureau	5508	5763

Of the 1,997 prisoners who were identified as having previously been fingerprinted at our Bureau, 1,929, after being questioned at the Bureau admitted their previous records here; however, additional fingerprints were taken of these prisoners to verify their criminal records. Of the 1,997 prisoners, 68 gave fictitious names and denied being arrested before, but were identified through their fingerprints as having criminal records.

During the year the Bureau was called upon to fingerprint 36 bodies at the County Morgue, of which 9 were identified through their fingerprints and 26 by relatives or friends.

The total number of prisoners registered during the year 1940 required the taking of 12,729 fingerprint cards, of which number 5,969 were sent to other bureaus of identification, 3,511 were placed in our master fingerprint file, and the balance, 3,249, were placed in the duplicate fingerprint file.

During the past year, 480 identifications were made through 4,219 fingerprint cards received from other police jurisdictions. Of this number 3,739 were properly classified and placed in our file, making a total of 7,289 local and foreign finger-print cards added to our file during the year.

A considerable amount of time was taken in searching our fingerprint file to determine whether or not, 1,154 applicants for United States Civil Service positions, who had been fingerprinted at the Federal Building, had previously been arrested. Of this number, 113 were identified as having arrest records.

During the past year fingerprints and photographs were taken of 199 members and employees of the Department.

#### IDENTIFICATIONS MADE AT OTHER BUREAUS THROUGH FINGERFRINTS CONTRIBUTED BY OUR DEPARTMENT

In 1940 there were 4,206 fingerprint cards (1,735 photographed here for the first time, 695 with photographs of previous offenders and 1,776 "roughs") sent to the Federal Bureau of Investigation; 1,735 fingerprint records with photographs sent to the State Department of Public Safety, Bureau of Identification, East Lansing, Michigan, and 28 fingerprint records were sent to other Identification Bureaus. Identification notices containing 945 aliases were received from these Bureaus as follows:

Federal Bureau of Investigation, Department of Justice,	Washington, D. C	1,666
State Dept. of Public Safety, Bureau of Identification,		State
Bureau of Identification, Police Department, Chicago, I	11	16

This department also received identification notices of subjects arrested in other jurisdictions during the year who had been fingerprinted by this department previous to January 1, 1940, as follows:

Federal Bureau of Investigation, Washington, D. C			- 40	11119
Miscellaneous identifications through other bureaus and department	ts.			2.877

The practice of contributing fingerprints to the Federal Bureau of Investigation, Washington, D. C., of all transients who were arrested here on minor charges, such as vagrancy, investigation, etc., and who were not photographed here, was insugurated during the year 1933, and has shown gratifying results. Of the 1,315 transients, not including repeaters, arrested during the year, 720 or 54.8 per cent, were reported as having previous criminal records.

#### Photographic Division

During the past year this division made 17,624 photographic prints as compared with 17,040 for the previous year. Following is a detailed tabulation of the work performed during the year 1940 as compared with 1939:

	1940	1939

To assist members of the department in the preparation of cases of local prisoners who had previous records, this Bureau, at the request of such officers, compiled and typed 390 criminal records on official stationery for introduction in court. In addition to this figure, 664 records previously compiled were furnished officers, making a total of 1054 records used for presentation in our criminal courts in aiding the presecution and disposition of cases before such courts.

During the past year, 2,047 handwriting cards were filled out by prisoners. These cards, together with photostatic copies of checks, anonymous letters, etc., are classified, indexed and filed according to the Lee and Abbey system of classification. There were 1,885 such cards and photostatic copies added to the file during 1940, making a total of 26,791 handwriting specimens now in this file. During the year there were 1,843 index cards filled out and filed alphabetically in connection with the handwriting specimens contained in this file.

The results obtained from questioning prisoners at the Bureau of Identification who had not previously been fingerprinted at the Bureau were very gratifying; 81.8 per cent of such prisoners admitted previous arrests for felonies and misdemeanors. These admissions were written in our record books and carefully checked when compiling records of such prisoners.

Of the total number of prisoners, 5,508 brought to the Bureau of Identification during the year, 3,365 or 61 per cent, were found to have previous fingerprint records.

Of the 1,735 such prisoners who were photographed by this Bureau during the year for the first time, 873 or 50.3 per cent, were reported by the Federal Bureau of Investigation, Department of Justice, Washington, D. C., as having criminal records elsewhere.

#### W.P.A. PROJECT

W.F.A. Froject No. 8209 was established in the Milwaukee Folice Department in June, 1938, for the purpose of:

1. Creating a single fingerprint file with the prints classified according to the Battley System.

2. Extending the classification of the regular ten-print cards according to the Renoe Extension, of all fingerprints taken prior to 1932.

In December, 1939, this project was superseded by W.F.A. Froject No. 10132 and in addition to the foregoing the new project also included the copying of arrest records for the period of 1921 to 1929 on 4 x 6 cards, creating a card file to conform with our other general arrest record files.

The number of cards classified and filed during the year was 18,740, making a total of 66,020 single fingerprints now on file. In addition, 2,063 permanent guide cards were made and placed in this file.

During 1940 a W.I.A. worker checked 10,209 Henry cards in the master fingerprint file, making verifications, classifications, extensions, and adding the extended classification and date of birth to the fingerprint cards as well as the name index cards.

#### DETECTIVE BUREAU

The Detective Bureau investigated 11,927 complaints of a criminal nature; 8.508 letters and communications were investigated; 6,897 persons were interviewed and 235 verbatim statements were taken.

The Pawn Division of the Detective Bureau, which daily checks reports submitted by the pawn shops and compares them with descriptions of property previously reported stolen, assisted in recovering property valued at \$8265.94 in 142 cases.

#### MISSING FERSONS

Announcements of missing persons are prerared by the Detective Bureau and broadcast daily over Radio Station WTMJ when publicity is desired. A total of 1,079 persons were reported missing during the year 1940, 30 being still missing (22 males and 8 females). Three of the missing men are wanted on Abandonment warrants; one youth is wanted by the Wisconsin Department of Fublic Welfare for violating parole; one youth of 18 is believed to have lost his life in the crash of a stolen seaplane in Lake Michigan; one man was reported by an ex-wife after he was missing since 1931. Two persons were reported missing since 1923, when a family parted. One woman was missing about 32 years before being reported, as she is sought in connection with the settlement of an estate. One woman is wanted on a capias for violating probation and another is being sought by the Wisconsin Industrial School for Girls as a parole violator.

#### VICE SQUAD

There were 399 complaints received by the Vice Squad during 1940 and 937 arrests were made by members of the squad. Complaints of disorderly houses and prostitution totaled 62 during 1940 and there were 54 cambling complaints, 10 liquor violation complaints and 8 complaints of fortune telling.

#### FOLICE RADIO

The city is divided into 20 uniform radio squad car districts. Each car is manned by two uniformed patrolmen who work in eight-hour shifts, and, in addition, there are an average of 15 radio motor-cycle patrolmen on each shift. There are 13 Detective Bureau radio squad cars on duty during the day and night. The Department now has 58 radio equipped automobiles, 13 radio equipped ambulance and patrolwagons, 55 radio equipped motorcycles, and a motorboat and armored car both of which are radio equipped.

The police radio and radio telegraph have expanded rapidly during the past few years. Contact is now maintained with many police and sheriff departments in Wisconsin as well as law enforcement units in 39 states. The police radio was able to remain in operation uninterruptedly for 24 hours each day during the year 1940 through the occasional use of its auxilliary transmitter and energency power plant.

The radio shop provides 24-hour maintenance service for the radio equipped vehicles of the Department. During the year the shop built and installed 53 receivers and dismantled 56 receivers.
