MILWAUKEE POLICE DEPARTMENT

ANNUAL REPORT

-1949-

Crime in general has increased throughout the nation according to the Federal Bureau of Investigation and an analysis of Milwaukee statistics for the most part reveals a similar trend. There were 104 cases of Assault and Robbery in 1949 as compared to 72 in 1948. In 1949, 121 Aggravated Assaults were reported with 93 in 1948. Milwaukee's murder record was again outstanding with only 5 actual murders, all cleared, for 1949. In 1948 there were 7 murders.

During 1949 there were 746 burglaries as compared to 638 in 1948; Larcenies over \$50 -- 1025 in 1949, 1014 in 1948; Larcenies -- Thefts under \$50 -- 3896 in 1949, 3818 in 1948.

Fewer automobiles were stolen during the past year -- 638 compared to 765 for 1948. To date 98.4% of the cars stolen have been recovered.

CHANGES IN SQUAD CAR ASSIGNMENTS

For many years the uniform force changed shifts at 8:00 A.M., 4:00 P.M. and midnight. It was customary for the motor equipment on patrol to return to their stations shortly before these hours to permit the cars to be serviced and the gasoline and oil checked prior to the next tour of duty. This greatly reduced the effective motor patrol for short periods of time each day. To avoid this a new plan was adopted whereby one-half of the squads were changed at 7:30 A.M., 3:30 P.M. and 11:30 P.M.

PERSONNEL

A semi-annual inservice rating system was adopted in 1949. Rating is based on fifteen qualities which are essential for a patrolman in the proper performance of his duties. Besides serving as a guide when candidates are being considered for promotion, it indicates weaknesses of the individual which can be corrected in the Police Training School program. Also if an officer is not particularly fitted for the type of duty to which he is assigned suitable changes can be made.

DETECTIVE BUREAU

The Detective Bureau investigated 13,121 complaints of a criminal nature; 8,634 letters and communications were investigated; 7,384 persons were interviewed and 273 verbatim statements were taken during 1949. There were 53 cases of suicide and 106 attempted suicides investigated by members of the Bureau. A total of 1,548 persons were reported missing during the year and 1,460 were located.

A total of 3,071 arrests were made by members of the Detective Bureau. There were 458 fugitives arrested by members of this Department and turned over to other jurisdictions and 223 arrested by other departments and returned here.

Pawn Division of the Detective Bureau assisted in 79 cases in recovering property previously reported stolen valued at \$21,957.26.

BUREAU OF IDENTIFICATION

The total number of prisoners registered in the Bureau of Identification during 1949 was 6,159 compared to 6,457 in 1948 and 6,136 in 1947. Of the total number of prisoners 65% had previous fingerprint records here or elsewhere. Of the total number of prisoners 1,816, or 29% were transients.

A summary of the work performed by the Bureau is as follows:

Number of fingerprints taken during the year	20,994
Number of fingerprints mailed to other jurisdictions	11,884
Latent fingerprint investigations	283
New Prisoners photographed	2,276
Copies of new prints	4,552
Photostatic copies of miscellaneous matter	11,288

During 1949, the Photographic Division produced 24,329 photographic prints as compared with 21,185 for the previous year.

There were 5,219 applicants for bartender licenses and 5,089 applicants for taxicab driver licenses registered and fingerprinted by the Bureau.

In 283 cases investigations were made at the scenes of crime for the purpose of developing latent fingerprint evidence, and in 173 additional cases objects were brought to the Bureau to be examined for fingerprint evidence. A total of 39 identifications were made during the year through fingerprints developed in these cases.

During the year 1949, the Bureau of Identification was called upon to assist members of the Detective Bureau in solving 13 difficult cases involving "inside" thefts reported in offices, stores, locker-rooms, hospitals, etc., in which the sneakthief continued to operate successfully despite the employment of the usual methods to effect his apprehension.

Frequently during the past year the Bureau was called upon to obtain tiny identifying jewelers' scratch marks on rings, wrist watches, and other objects and in every instance the numbers were read by the use of the binocular microscope. Ultra-violet light machines were used on many occasions to read faint and illegible writings and to detect changes made in documents, identification cards, etc.

There were 3,712 handwriting cards classified according to the Lee & Abbey system making a total of 49,090 cards in the file. During the year this file proved valuable in the examination of question documents and identification of persons who had committed forgeries and fraudulently issued bank checks.

Check "Trade Mark" File

After four years of experimentation a "check trade mark" section was added to the handwriting file. This file is unique inasmuch as it is the only one of its kind to be used in the United States and was developed by this Department. This file uses as a basis the manner of writing the amounts in figures, in words, or a combination of words and figures on the "dollar" line of the check. It is only necessary for two factors to coincide to make an identification.

JUVENILE DELINQUENCY PREVENTION PROGRAMAND THE YOUTH AID BUREAU

In Milwaukee since the establishment of the Youth Aid Bureau and the new system adopted in 1946 wherein each member of the Police Department was trained to understand the juvenile problem, a substantial decrease has been shown in juvenile delinquents. In 1945, the year prior to the establishment of the new juvenile policy, there were 6,302 juvenile detentions by this department; for the year 1949 there were 3,760.

As a result of this program each officer is instructed to assume an intelligent, understanding, and sympathetic attitude and to treat the pre-delinquent child in this manner. Therefore, all members of the Department are virtually juvenile crime prevention agents.

The Youth Aid Bureau serves as a nucleus and a clearing house for all referrals made to the Bureau of those juveniles that the individual police officer has difficulty in rehabilitating. A supplementary case history on a regular form is made for each referral received. A continuous record is kept on this form of all interviews, contacts, and investigations. Members assigned to duty in the Bureau made 4,905 personal contacts regarding referred juveniles. These contacts included interviews with the child, parents, school and the probation department.

A total of 1,723 investigations were made on complaints received from schools, churches, civic and fraternal groups, theatres, sweet shops, citizens, etc. Vandalism, disorderly conduct, destruction of property, minors loitering or drinking in taverns, and minor larcenies were the chief cause of complaint. The more serious charges involved sex offenses, runaways, contributing to the delinquency of a minor by an adult and promiscuous neglect of children on the part of parents or guardians.

Members assigned to the Bureau also made 2,582 regular inspections and visits to youth centers, social centers, club, taverns, soda fountains, sweet shops, restaurants, roller skating rinks, meeting halls, theatres, after-school assemblies, athletic events, etc. These inspections are routine daily activities for the members of the Bureau and are not a part of the investigations made on complaint from such sources.

The program of the Police Athletic League, usually referred to as "PALS", is available to all children and stresses character developing activities. The success of this type of crime prevention program can be illustrated vividly by noting the effectiveness of the "PALS" baseball program. Sponsored by individuals and business concerns, 73 softball teams were organized and 75 police officers volunteered their services during off duty hours to serve as coaches and umpires.

One of the Police Department's best weapons in combating juvenile delinquency is the splendid working relationship that has been established between the police and the youth of the city. Through this close contact with police, the youths realize—some for the first time—that a policeman is their friend. It tends to instill in the minds of boys and girls respect and affection, rather than fear and mistrust for the representatives of law and order.

POLICE TRAINING SCHOOL

The Milwaukee Police Department Training School maintains a continuous educational program for 1,312 police employees. During 1949, the Training School conducted:

- 10 Sessions on Arrest Search & Seizure
- 2 Sessions on Preparation and Presentation of Cases in Court
- 2 Sessions on Telephone Courtesy and Telephone Efficiency
- 1 Session on Court Deportment and Public Relations
- 1 Session on Spelling
- 1 Session on Disaster Control
- 9 Sessions on Drill for Memorial Day Parade
- 3 Examinations on these Various Subjects

Special Expert Lectures:

- "Courtesy & Deportment" by Chief John W. Polcyn
- "Sex Hygiene" by Dr. Walter Gebert, Health Department
- "Employer-Employee Relations" by Dr. John Traacy, Marquette University

In addition, the Training School, for the first time, organized a special course of instruction for supervisory officers and 30 sessions were conducted for 98 superior officers regarding their duties.

Each man attending classes, qualified indoors with his service revolver in target practice sessions and all detectives, and squad car officers qualified at the Lake Park Gun Club in hip-shooting, shotgun, rifle and machine gun.

A total of 112 newly appointed patrolmen received training during 1949.

- 29 Patrolmen appointed January 24, 1949
- 71 Patrolmen appointed April 22, 1949
- 12 Patrolmen appointed July 11, 1949

The recruit training program embraces 35 days of eight-hour classes in a complete curriculum covering all fields of law enforcement activities. In addition, 15 days training in practical patrol duty is afforded newly appointed recruits after completion of their academic course.

There were 22 sessions of Bicycle Violator's School conducted with 1,033 violators and 444 visitors in attendance.

In the field of Public Relations, 22 speeches by personnel of the School were given to various civic, fraternal and church organizations, and in these appearances 6,384 persons attended.

Organization of the Milwaukee Police Department Blood Donor's Club begun on February 21, 1949, with an enrollment of 1,191 persons to date. All files and transactions are handled through the School. There were 35 pints of blood withdrawn by members of the club in the year 1949 with approximately 100 men donating.

The Auxiliary Police were reactivated April, 1949, and 5 training sessions were conducted by School personnel.

The Training School assisted in staging a television show depicting the workings of the Police Department on October 26, 1949, Station WTMJ-TV. School personnel participated in two radio programs during 1949.

COMMUNICATIONS BUREAU

The Radio Bureau and Police Alarm (Telephone Division) were consolidated in 1949 and the Radio Engineer whose title was changed to Superintendent of Communications, was placed in charge of all Police Communications. This change has resulted in greater operating efficiency in this phase of the Police Service. During the year an extensive survey was also made by the Wisconsin Telephone Company in co-operation with the Department for the purpose of determining costs and feasibility of consolidating the three police alarm switchboards located in the Safety Building and the Second and Fifth Police Districts into one central dial switchboard located in the Safety Building.

A new ultra high frequency radio transmitter of latest design was placed in operation during 1949 and 9 FM mobile transmitter and receivers were installed in the squads. Broadcasts by radio dispatchers are made simultaneously over two transmitters (AM and FM) to provide adequate radio communication service while the transition is being made to ultra high frequency equipment.

The call letters of the Police Radio were also changed by the Federal Communications Commission. It is KSA-536 for the regular police radio (phone) broadcasts and KSA-57 for the police interzone telegraph.

The total transmissions from KSA-536 for 1949 were 208,567 while in 1948 the total transmissions were 194,653. Total transmissions from cars on the street to the dispatcher were 313,106 in 1949 compared to 299,523 in 1948.

The total orders sent to Fire Department vehicles in 1948 amounted to 6005 and a total of 15,240 incoming calls were received from these vehicles.

The radio service furnished to the sheriff and other police departments in the county is also increased in 1949. There were 30,440 orders sent out and 57,288 incoming mobile calls were received.

There were 6331 intercity messages transmitted and 8081 such messages received by the Radio Bureau.

TRAFFIC BUREAU

During the year of 1949 several new laws were enacted in an effort to curb the rapidly rising accident rate. New pedestrian regulations require that they cross business streets only at intersections and then in accordance with the traffic control functioning at that intersection. Motorists are required to give hand signals when turning if their cars are not equipped with flashing lights.

There were 103,375 arrests for traffic violations during 1949 as compared to 88,418 for 1948. A total of 24,065 warning cards were issued to motorists for minor violations of the traffic code and bad driving practices as compared to 24,197 for 1948. During the year, 8815 bicyclists received warning cards for violations of the Bicycle Ordinance or Traffic Code as compared to 8,530 for 1948; and the total attendance at the Bicycle Violators' School was 1,033 for 1949 as compared to 991 for 1948.

There were 19,647 traffic accidents in 1949 compared to 17,426 for 1948 an increase of 16%. (For complete traffic accident statistics see pages 25 to 34, Tables XII-A to XII-K.)

VICE SQUAD

There were 602 complaints received and investigated by the Vice Squad during 1949 compared to 641 during 1948; 1,152 arrests were made by members of the squad during the current year.
