MILWAUKEE POLICE DEPARTMENT

ANNUAL REPORT

-1954-

The steady upward crime trend which has been so evident in recent years leveled off during 1954. In most classifications, although the offenses reported were higher than in 1952, were lower than the 1953 rate. Murder and non-negligent manslaughter decreased from 11 in 1953 to 10 in 1954; robbery 156 cases in 1953 compared to 152 in 1954; aggravated assault 1953 - 292, in 1954 - 286; burglary 992 cases in 1953 declined to 810 in 1954; larceny over \$50.00 - 1679 in 1953, with 1544 cases reported in 1954.

Only two classifications increased. Auto theft 1953 - 820 cases, increased to 915 for 1954; and larceny under \$50.00 - 4597 in 1953 compared to 4963 such cases in 1954.

AREA OF CITY INCREASED 23%

The area of the City of Milwaukee increased 12.61 square miles during 1954. A larger territory was annexed to the city than during the previous twenty years. Two large annexations alone had a population of over 16,000 people. Five additional squad cars were required to patrol the new areas.

40 HOUR WORK WEEK

The working hours of the Police Department were reduced from 44 hours to 40 hours per week January 1, 1954. To give the city the same protection it was necessary to increase the personnel of the Department by 140 members.

TELETYPEWRITERS

Appropriation was made in the 1954 budget to install teletypewriters in the Police Department. Details for this installation have been completed.

TWO-TONE COLOR FOR SQUADS

Regular police squads ordered the latter part of 1954 specified white tops and black bodies with an additional designation of "POLICE" on the top of the trunk.

FIELD INTERROGATION REPORT

In 1954 a Field Interrogation Report was created. Information is now submitted by police officers to the Detective Bureau of suspicious persons stopped on the streets. In such cases the police officers, not having sufficient grounds for arrest, nevertheless submit details of the circumstances in the "stickup" to the Detective Bureau. Since this system was instituted a total of 7,800 such cards were transmitted to the Bureau for further investigation. Of this total, 93 were found to be wanted by the Department for various offenses. This system also serves as a crime deterrent.

ALCOMETER FOR INTOXICATION TEST

The Department has purchased an alcometer, the most modern method of determining the degree of intoxication with extreme accuracy in a few minutes. This is especially important in questionable cases for it enables a commanding officer to properly dispose of such cases.

EXAMINATIONS FOR DETECTIVE, DETECTIVE SERGEANT AND LIEUTENANT OF DETECTIVES

On the recommendation of the Chief of Police, the Fire and Police Commission adopted the policy of holding promotional examinations for the rank of Detective, Detective Sergeant and Lieutenant of Detectives.

PERSONNEL RATING TRANSFERRED TO POLICE TRAINING SCHOOL

Transfer to the Police Training School the responsibility for rating and interviewing of all department personnel occurred this year. A special class of instruction was held with superior officers doing Probst ratings, after which, all personnel were again rated for the January 1, 1954 - June 1, 1954, period. These prepared forms were scored and after perusal, interviews with the intent of acquainting those falling below average were held. These interviews were held daily, and were continued from August until the close of the year.

TELEVISION PROGRAMS FEATURING POLICE DEPARTMENT

In the latter part of June, 1954, the Training School was delegated the task of innovating a series of sixteen television shows to be presented over Station WTMJ-TV. After extensive preparation of scripts, materials, and equipment the first program was launched on July 30, 1954, and a series of 15 television shows of approximately 40 minute duration on the following themes were presented.

1. Introduction to the Milwaukee Police Department
2. The Police Officer
3. Police Equipment (Mobile)
4. Ambulance and First Aid Demonstrations
5. Accident Investigations
6. Detective Bureau
7. School Safety and Crime Prevention
8. Narcotics
9. Police Defensive Tactics
10. Police Communications
11. Police Firearms
12. Police Activities (Sports, Band, etc.)
13. & 14. Scientific Aids
15. Youth Aid Bureau
16. Guarding Against Pickpockets -- Conclusion Address by Chief Polcyn

BUILDING PROGRAM

In the 1954 budget an appropriation was made to erect another tier of cells in the Safety Building increasing the cell capacity by 26. The bids on this project have been awarded and work is now proceeding.

The old library in the Police Training School is being remodeled to provide four offices for the staff of the Training School.

CIVIL DEFENSE ACTIVITIES

In cooperation with the Milwaukee Civil Defense and Disaster Committee, continuous in-service training for the 427 Auxiliary Police regulars was continued.

The Training School Staff, in cooperation with the Bureau of Traffic Engineering, developed a traffic plan for evacuation of the City of Milwaukee. This plan was the subject of a Federal Civil Defense study and has become the pattern for major cities in this type of planning.

To cope with the increase in traffic the motorcycle detail was enlarged in 1954.

During 1954, a total of 219 newly appointed patrolmen were given their recruit training in the Police Training School.

All outlying stations now have at least one 'station-wagon' type of patrol-ambulance.

Police cars now have white tops and are marked 'POLICE' on both side doors and on the trunk.

Arrangements were made for the installation of a teletype system at twelve locations in the Department.

An 'Alcometer', the latest scientific device for determining the degree of intoxication, was placed in service in 1954.

DETECTIVE BUREAU

The commanding officer of the Detective Bureau is now an Inspector of Detectives -- the Captain of Detectives is in charge in the absence of the Inspector. A new criminal intelligence squad was created in the Detective Bureau to investigate and combat any attempts of syndicate crime gangs to operate in Milwaukee.

The Detective Bureau investigated 15,486 complaints of a criminal nature; 8,521 letters and communications were received and investigated, index cards recorded in the General Records File for future reference in the checking of prisoners, processed through the Detective Clerical Division. Approximately 10,742 prisoners were interviewed. During such interrogation, there were 253 verbatim statements recorded in shorthand.

During the past year there were 54 suicides and 157 attempt suicides checked in the Bureau. There were 799 sudden death reports and 277 miscellaneous injury reports received. A total of 2,262 persons were reported as missing during the year of which 2,210 persons were located.

Arrests made by this Bureau totaled 2,386. There were 406 fugitives arrested by members of this Department and turned over to other jurisdictions and 209 arrested by other departments and returned to this city for prosecution. There were 1,375 warrants assigned to the Detectives.

During 1954 the Detective Clerical Division sent 4,610 letters to other law enforcement agencies, 1,561 letters requesting pawn check on stolen articles, 1,210 miscellaneous circulars, and 1,039 telegrams were dispatched in routine police investigations. There were 9,518 radiograms received, checked and filed in the Clerical Division.

There were 10,009 license applications checked in the Bureau. Approximately 28,126 names were checked through the General Arrest Records File for persons wanted.

BUREAU OF IDENTIFICATION

During 1954 a new single fingerprint file was established in the Bureau of Identification which contains fingerprints of all burglars, holdup men, safe burglars and major hoodlums. This file contains impressions of the five fingers, each hand separate, supplemented by palm prints, and with a modified classification, which aids in searching any latent prints found at the scene of the crime.

New techniques on classification and filing of handwriting specimens were developed and placed into operation in the Document section of the Bureau. Specimen cards are now filed by "modus operandi" with sections designated as to type of offenses. This includes Check Trademarks (based on amounts), Anonymous, Confidence Games, Fraudulent Buying, Fraudulent Check, Hotel Fraud, Larceny, Larceny (check), Mail Theft, and Miscellaneous.

Worthless check complaint files were transferred from the Detective Bureau Clerical Division to the Identification Bureau. A record is also made for our file in check cases, where warrants are issued by the District Attorney and no complaint has been previously made to the Department. A signature section was added for filing in alphabetical order copies of signatures of common surname and common first name in questioned document cases such as check fraud, disposing of stolen property, etc. The object is to increase the chance of identifying common name signatures.

The total number of prisoners registered in the Bureau of Identification during 1954 was 9,678 compared to 9,717 in 1953 and 9,049 in 1952. Of the total number of new prisoners 37% had previous fingerprint records here or elsewhere. Of the total number of prisoners, 2,329 or 24% were transients.

A summary of the work performed by the Bureau is as follows:

	<u>1953</u>	<u>1954</u>
Number of fingerprints added to criminal file.....	10,785	10,564
New prisoners photographed.....	2,871	3,404
Copies of new prints.....	4,305	3,405
Photostatic copies of miscellaneous matter.....	9,579	11,819

The Bureau also answers communications regarding criminal records and information relating to subjects who have been identified through the medium of fingerprints. This type of correspondence requires careful preparation of information and records and are usually lengthy. During the year, 10,409 such letters were written in the Bureau.

During 1954, the photographic division produced 33,473 photographic prints as compared with 32,042 for the previous year.

There were 1,455 new applicants for bartender licenses, 4,839 renewals for bartender licenses, 1,198 new applicants for taxicab driver licenses and 1,322 renewals for cab driver licenses.

In 198 cases investigations were made at the scenes of crime for the purpose of developing latent fingerprint evidence, and in 209 additional cases objects were brought to the Bureau to be examined for fingerprint evidence. A total of 49 identifications were made during the year through fingerprints developed in these cases.

JUVENILE DELINQUENCY PREVENTION PROGRAM AND THE YOUTH AID BUREAU

The Youth Aid Bureau, established in 1946, has served as a clearing house for the Department for the referral of all youths where officers find that their behavior or activities were such that they are likely to become law violators. Through the activities of this Bureau the early detection of these maladjustments and other anti-social behavior makes it possible for the early rehabilitation of the youth before permanent harm has occurred.

Police officers have been trained to temper firmness with friendliness and to offer counsel and guidance in dealing with the youth of the city. As the result there has been considerable change of attitude on the part of children toward police officers. Uniformed officers assigned to school crossings have won the admiration, friendship and respect of children. Through public education by the police fewer parents are using the time-worn threat of "calling a policeman" to obtain obedience from their children.

A total of 7,327 referrals was received by the Bureau during the year compared to 6,905 for 1953. Of the referrals 6,211 were boys and 1,016 girls. There were 4,791 detentions in 1954 compared to 5,639 in 1953. As the result of the investigation of cases of delinquent and predelinquent juveniles it was necessary for members of the Bureau to make adult arrests of persons responsible for the delinquency of the youths. During the year 175 such arrests were made.

Juveniles who are reported as missing are referred to the Bureau for investigation. In 1954, 764 boys and 606 girls were reported as missing to the Department. Of this group only six youths have not been located.

A total of 2,035 investigations were made on various complaints. Vandalism, disorderly conduct, destruction of property, minors loitering or drinking in taverns, and minor larcenies were the principal cause of complaint. The more serious charges involved sex offenses, runaways, contributing to the delinquency of a minor by an adult and promiscuous neglect of children on the part of parents or guardians.

Members assigned to the Bureau also made 5,460 regular inspections and visits to youth centers, social centers, clubs, taverns, soda fountains, sweet shops, restaurants, roller skating rinks, meeting halls, theatres, after-school assemblies, athletic events, etc. These inspections are routine daily activities for the members of the Bureau and are not a part of the investigations made on complaint from such sources.

Officers from the Bureau were assigned to give a total of 151 talks pertaining to juvenile delinquency and various juvenile problems before church groups, clubs, civic and fraternal organizations during the year. Members of the Bureau also conducted 107 groups on educational tours through the Safety Building.

Special activities of the Bureau included serving on various community committees, participating in Boy Scout activities, showing movies to school groups, advising the counselling school safety cadets, actively participating in the Soap Box Derby, Scout-O-Rama, playground and social center activities, Boys Club, Y.M.C.A., Junior Achievement and others. More than 2,236 bicycles were inspected and the bicyclists tested for their riding skills in 1954.

POLICE TRAINING SCHOOL

A continuous in-service training program for the 1,585 police employees of the Milwaukee Police Department was conducted during the year 1954. A total of 285 classes of instructions embracing new and review theories of modern police work were covered, supplemented with mimeograph material, on the following subjects:

- What We Can do to Combat the Recent Wave of Burglaries and other Crimes
- Field Interrogation Incidents (Two Weeks)
- Field Interrogation Report Form
- Generalities and Review of First Aid
- Collection and Preservation of Evidence
- Description of Atomic Devices and Component Parts
- Burglary Investigations (Two Weeks)
- Public Relations (Four Weeks)
- Descriptions

Special Expert Lectures

- "The State of the Department in 1954" by Chief J. W. Polcyn
- "Activities and Functions of the Milwaukee Commission of Human Rights" by Mr. Herman Kastrul
- "Understanding Our Fellow Man" by Professor Rudolph Morris Marquette University
- "Presentation of State Cases in Court" by Deputy District Attorney Joseph Tierney.

During the year, the Police Training School conducted 340 in-service firearms classes in which each officer qualified with his service revolver on the indoor range at the Safety Building. During the fall months, the entire department participated in firearms practice at the Milwaukee Gun Club.

A total of 219 newly appointed patrolmen and three policewomen completed the 300 hour Recruit Training Course during 1954.

- 75 Patrolmen appointed 1-25-54
- 75 Patrolmen appointed 5-10-54
- 69 Patrolmen appointed 8-9-54

With ten sessions of the Juvenile Bicycle Violator's School conducted, 628 violators and 130 visitors (juveniles and parents) attended classroom instructions on safe bicycling procedures.

Staff members of the school engaged in 31 speeches and various radio and television programs embracing police and related topics in civic, fraternal, and church organizations and the total attendance was computed in excess of 3,000 persons.

A class of 48 prospective School Crossing Guards received a one-week training course during the week of February 22, 1954. The complete School Crossing Guard Corps numbering 137 guards underwent a refresher review of their duties.

One staff member of the Police Training School attended a two-week refresher course at the FBI National Academy in Washington D.C., during the months of May and June.

COMMUNICATIONS BUREAU

In 1947 all suburban police departments' and the sheriff's department vehicles were part of our radio system. Now only the sheriff's department and a police car operated by the Village of Greendale is left in our system. There are now ten independent radio systems operating on six different frequencies serving these suburban vehicles.

A total of nine antennas were erected on the new 200 foot tower at the Civil Defense Main Control Center during February. Complete installations of base station transmitters and receivers were made for the police radio system, the fire radio system, the police intercity radiotelephone system and RACES radio stations on the 50Mc Command Post channels and on the 10 meter band. The police and fire radio stations are normally operated as alternates from their respective dispatchers' offices in the Safety Building and City Hall, while the police intercity station is normally operated as an alternate by the radio operator at the Third District Station. Controls for each of the radio systems are installed at operating positions in the main control center communications room so that Civil Defense operators may control these stations during periods of disaster.

Removal of the old police radio equipment and installation of new two-way radio units on the fire radio system KSD344 was completed on all vehicles of the Milwaukee Fire Department in August. All radio equipped vehicles of the Fire and Police Alarm system were also transferred from the police to the fire radio system by September. The Milwaukee County Sheriff's Department replaced all but two of its old squad car radio installations with new 150Mc two-way units.

Receivers on two additional 150 Mc band police talk-back frequencies (155.91 and 156.03Mc) were installed in March at the Third District Police Station and also at Engine 22 Fire House preparatory to changeover of sheriff's department radio equipment. Use of the talk-back frequency 37.22Mc was discontinued in August after all fire department equipment had been replaced. All outgoing radio calls are still transmitted simultaneously on 2450kc AM and 159.15Mc FM, although only the 53 motorcycles of this department, 15 motorcycles and 5 cars of the county and the monitor receivers in the suburban police stations still utilize the AM signal.

TRAFFIC BUREAU

Milwaukee regained first place as the city in the nation with a population of 500,000 having the lowest motor vehicle fatalities for the year 1954. Milwaukee had 51 fatalities and the rate based on 10,000 automobiles registered was 2.3. Seattle, Washington was second with 53 fatalities and a rate of 2.5; Dallas, Texas, third, 58 fatalities and a rate of 2.7.

There were 210,205 arrests for traffic violations during 1954 as compared to 195,281 for 1953. A total of 41,469 warning cards were issued to motorists for minor violations of the traffic code and bad driving practices as compared to 32,111 for 1953. During the year, 7,480 bicyclists received warning cards for violations of the Bicycle Ordinance or Traffic Code as compared to 8,373 for 1953; the total attendance at the Bicycle Violator's School was 758 for 1954 as compared to 798 for 1953.

There were 21,912 traffic accidents in 1954 compared to 22,213 for 1953. (For complete traffic accident statistics see pages 29 to 36 - Tables XII-A to XII-K.)

VICE SQUAD

There were 1,176 complaints received and investigated by the Vice Squad during 1954 compared to 956 during 1953; 1,954 arrests were made by members of the squad last year compared to 1743 in 1953.

There are no known establishments or places in the City of Milwaukee where gambling or prostitution exists. The Vice Squad and the members of the entire department are constantly on the alert for any forms of gambling or prostitution and arrest all persons engaged in such activities.

Narcotics continues to be a serious menace to society. Consequently the entire Police Department is constantly on the alert for any evidence of dope peddlers and addicts and a special squad devotes their full time to investigation of these cases. The problem is aggravated by the fact that the distribution of narcotics is on a national basis. There were 270 complaints pertaining to narcotics received by the Department in 1954, compared to 242 the previous year. In 1954 there were 157 adult narcotic arrests and 3 juvenile cases. Again the age groups from 18 to 25 had the greatest number of arrests - 45%; only 2% were juveniles under 18 years of age. Of those arrested in 1954 - 29% used marihuana and 62% used heroin.
