Organizational Chart

MILWAUKEE POLICE ORGANIZATIONAL CHART

Effective August 24, 2006

Office of the Chief

THE OFFICE OF THE CHIEF CONSISTS OF THE PROFESSIONAL PERFORMANCE DIVISION, BUDGET AND FINANCE DIVISION, PUBLIC INFORMATION OFFICE, RESEARCH AND DEVELOPMENT DIVISION AND THE COMMUNITY LIAISON OFFICERS.

Professional Performance Division

Mary Hoerig
Deputy Inspector
Professional Performance Division

Deputy Inspector Mary Hoerig was the commanding officer of the Professional Performance Division in 2007. The Professional Performance Division is made up of the Internal Affairs, Criminal Investigation, Risk Management and Background Investigation Sections.

The Internal Affairs Section is tasked with investigating complaints against members of the Department. These complaints are generated either internally or as a result of a citizen complaint. Of the 993 complaints received during 2007, 209 allegations were sustained. The Criminal Investigation Section, which is assigned to investigate criminal allegations against members of the Department, conducted 207 investigations.

The Background Investigation Section investigates the background history of individuals that apply for employment with the Milwaukee Police Department. This section is utilizing civilians hired as Police Service Specialists-Investigators (PSSI) to conduct thorough background investigations as part of investigative teams lead by experienced Detectives. By employing civilians as PSSIs, it has allowed previously assigned Police Officers and Detectives to return to patrol duties. During 2007, through dili-

gent background investigation, the goal of filling three Police Academy classes was accomplished. Overall, 802 background investigations were completed during the year.

The Risk Management Section is made up of the Civil Litigation Unit, Risk Management/Early Intervention Program and Records Request Section. The Civil Litigation Unit acts as the designee for the Chief of Police and Milwaukee Police Department regarding civil process and also investigates large claims against the city. In addition to receiving 29 claim investigations for 2007, they also processed 180 civil and 256 miscellaneous documents. The personnel also played a significant role in assisting with the creation of the Early Intervention Program. One sergeant worked exclusively on creating the Early Intervention Program, which included heading a Focus Group, which assisted in creating performance indicators, benchmarks and timelines to aid in the creation of the Standard Operating Procedure. An overview program was developed in order to train all Department personnel in the use and benefits of the Early Intervention Program. It is hoped that EIP will be fully operational by Spring 2008.

Office of the Chief

Budget and Finance Division

Barbara Butler
Administration Manager,

The Budget and Finance Division is responsible for the preparation and justification of the Department's financial matters, as well as its accounting, budgeting and purchasing activities.

The Department relies on capital project funds, the city's operating budget, asset forfeiture funds, and federal, state and local grants. Capital projects are one-time large projects for which the city borrows money. The operating budget is the amount of the property tax supported budget that is allocated to the Department. Asset forfeiture funds are awarded to the Department by the federal courts from money the Department seized during drug related arrests. The Department continuously works to acquire funding through various grants and other sources.

2007 ANNUAL BUDGET	
SALARY	\$ 149,656,495
FRINGES	50,883,209
OPERATING EXPENDITURES	11,427,993
EQUIPMENT	2,085,576
TOTAL OPERATING BUDGET	\$ 214,065,388
SPECIAL FUNDS	\$ 12,115
ASSET FORFEITURE RESOLUTIONS	1,790,930
OT GRANTS	1,424,700

2007 EXPENDITURES	
SALARY	\$ 155,451,381
FRINGES	49,253,393
OPERATING EXPENDITURES	11,653,118
EQUIPMENT	1,960,888
TOTAL OPERATING BUDGET	\$ 218,318,780

* Budgeted Amount approved by the Milwaukee Common Council for 2007

Public Information Office

Anne E. Schwartz
Public Relations Manager

The Public Information Office is responsible for the dissemination of information to the citizens of Milwaukee concerning the Department and its activities. The office utilizes all available media outlets and the Department's website. The office

also disseminates information to members of the Department through memos and an inter-department newsletter, *The M.P.D. Extra*.

Research and Development

Research and Development is responsible for the preparation, drafting and updating of Departmental rules, procedures, directives, memos and general and special orders. Research and

Development is involved in the maintenance and update of operational manuals and conducts research on police issues, equipment and technologies.

Community Liaison Officers

It is the policy of the Milwaukee Police Department to establish, provide and maintain open lines of communication with all citizens and cultural groups in the community. The Community

Liaison Officers demonstrate this commitment by promoting cooperation, establishing and maintaining public trust, developing and forging partnerships with the community as well as

bridging cultural differences between Department members and different cultural groups within the community.

Office of the Assistant Chief

Joseph D. Whiten
Assistant Chief of Police

THE OFFICE OF THE ASSISTANT CHIEF OF POLICE CONSISTS OF THE FIELD INSPECTION DIVISION AND THE INTERGOVERNMENTAL SERVICES DIVISION.

Field Inspection Division

The Field Inspection Division consists of two Deputy Inspectors who work in the field and are responsible for maintaining operational oversight of the Department, with particular emphasis on line operations and inspections.

Intergovernmental Services Division

The Intergovernmental Services Division is made up of the Property Control Section, License Investigation Unit and the Municipal Security Section.

In 2007, Deputy Inspector Anna Ruzinski was in charge of the Intergovernmental Services Division. This division is the liaison for the Department and all outside entities, to include elected officials on the local, state, and federal levels and private partnerships as well.

A notable accomplishment for 2007 was the implementation of the Crisis Intervention Team (CIT). CIT officers receive 40 hours of intense training in dealing with people suffering from a mental crisis. The Department currently has 120 CIT officers and plans to have 25% of the first responding patrol force trained within three years.

The Property Control Section is responsible for all property coming into the possession of the Milwaukee Police Department. In 2007, a newly signed contract with the Milwaukee Public Schools and the Wisconsin Bike Federation was implemented. Nearly 400 unclaimed and abandoned bicycles were turned over to the Bikes 2 Schools program. The program will teach students to repair bikes and the students will receive them for transportation. A procedure was also implemented to transfer disposable evidence and unclaimed property to Property Room.com, an Internet auction service, in 2008 when a contract is signed with the City. On-line auctions have proven to be cost effective and generate higher revenues than semi-annual sale events at city storage facilities. The auctions also aggregate and sell as-is, damaged or worn items, which would otherwise end up

in a landfill.

The Municipal Security Section provides security for the mayor at all events and provides security for the three building municipal complex. This allows for the safety of elected officials and citizens visiting or conducting business in or around City Hall. In most cases, officers assigned to the Municipal Security Section are able to handle calls for service and complaints coming to their attention, which allows district squads to remain available.

The License Investigation Unit (LIU) investigates and processes city license applications, requests and renewals. During the year, they performed 9,635 license investigations. The LIU is also tasked with the random annual inspection of all taxicabs, limos, shuttles, horse and surreys and pedi-cabs in the city. In 2007, the LIU inspected 321 taxis and 206 other passenger vehicles. The Unit assisted in developing and implementing a "tickler system" which assists in the tracking of major incidents at all licensed premises in the City of Milwaukee.

Denita Ball
Field Deputy Inspector of Police

Gregory R. Thompson
Field Deputy Inspector of Police

Anna Ruzinski
Deputy Inspector of Police

Administration Bureau

Monica E. Bay
Deputy Chief of Police

Vincent Flores
Inspector of Police

Ramon Galaviz
Deputy Inspector of Police

*T*HE ADMINISTRATION BUREAU IS COMPRISED OF THE POLICE ACADEMY, PERSONNEL DIVISION, CENTRAL RECORDS DIVISION, COMMUNICATIONS DIVISION, DATA SERVICES DIVISION, IDENTIFICATION DIVISION AND FACILITIES SERVICES.

Police Academy

The Police Academy is comprised of the Firearms Section, In-service Section, Recruit Section and Community Services Division. The Police Academy has been recognized as a regional training center and offers training to all members of the Department, as well as outside jurisdictions.

Firearms Section

The Firearms Section provides training to new recruits as well as continuing instruction to all members with police powers. In addition, they oversee the purchase and maintenance of all Department issued firearms and "less lethal" weapons. In 2007, the Firearms Sections initiated the Glock Trade Back program, which updated older pistols and saved the Department over \$70,000. Through the use of asset forfeiture funds, the Firearms Section was able to purchase 50 new X-26 Tasers, which led to new electronic control device users and enhanced officer safety and efficiency.

In-Service Section/Specialized Training Section

The In-Service/Specialized Training Section is responsible for the implementation, delivery and coordination of all training programs in the Department. During the course of the year, all sworn members of the Department were trained and updated on a variety of law enforcement topics. In addition, the Police Academy worked with the Tactical Enforcement Unit and completed both classroom and hands-on active

shooter training Department wide. Nationally recognized experts such as Dr. Kevin Gilmartin and instructors from Northwestern University were brought in to provide training to personnel while in-house personnel with specialized expertise taught other courses. The Academy also completed federally mandated courses on the National Incident Management System (NIMS). In addition, three adult and one youth Citizens Academy classes graduated in 2007.

Recruit Section

In 2007, Recruit Section personnel instructed and successfully graduated 93 recruit police officers, providing them with the skills needed to become successful law enforcement officers. In addition, three other classes were started totaling 152 recruits. The Recruit Section also developed and delivered two new Field Training and Evaluation Program training courses, which included selecting and educating 50 new Field Training Officers. In addition, the staff of the Recruit Section partnered with the Force Science Institute and Dr. Bill Lewinski to conduct a study on the physiological and psychological aspects of human performance during lethal force encounters.

Administration Bureau

James Galazewski
Captain of Police

Florence H. Dukes
Safety Director

Gregory Moore
Captain of Police

Administrative / Office Staff

The Administrative Section of the Police Academy serves as the Department's quartermaster, overseeing the issuance and replacement of uniforms and other equipment. This section also provides the logistical support for

all of our training, including the production of audiovisual presentations. In addition, they processed hundreds of requests from members to attend training hosted by the City of Milwaukee's Department of Employee Relations.

Safety Division

The Safety Division is responsible for providing school crossing guard protection and implementing policies and educational programs aimed at reducing accidental deaths and injuries throughout the City of Milwaukee. Some of its accomplishments in 2007 are as follows:

- Maintained a diverse and trained staff of one hundred and eighty-two School Crossing Guards and twenty-seven Substitute School Crossing Guards.
- Coordinated the "Annual School Crossing Guard Recognition Program" on January 11, 2007 at the Safety Academy.
- Conducted in-service training programs on Pedestrian Safety Education to twenty-three elementary school teachers and three hundred and eighty-three pre-schools and day care instructors.
- Coordinated efforts for the "Annual International Walk our Children to School Day" held at Alexander Mitchell Elementary School on October 3, 2007.
- Revised Water Safety Program for distribution to 225 public and private elementary schools, which was adopted for use by all Boys & Girls Clubs of greater Milwaukee.
- Developed and distributed a fire-works brochure in both English and Spanish to area elementary and middle schools, libraries, Boys & Girls Clubs, YMCA, YWCA, Children's Outing Association locations, United Community Center, Neighborhood Block Watch Clubs and other non-profit organizations.
- In cooperation with the City Clerk's Office-Licensing Division and City Attorney's Office, revised the Public Passenger Vehicle Test for uniformity citywide.
- In collaboration with Milwaukee Public Schools, received \$250,000.00 for the continuation of a "Safe Routes to School Program".

Community Services Division

The Community Services Division develops and implements strategies to prevent crime in the city. This effort includes coordinating the Police Athletic League, a citywide block watch program, preparing crime trend bulletins, and coordinating with district community liaison officers. The division also

coordinates the Explorer Scout and Police Auxiliary programs. Noteworthy accomplishments in 2007 include:

- 24 brochures were translated in Spanish and 12 in Hmong. We are continuing to expand/update our pamphlets, brochures and videos to

Administration Bureau

further reflect the demographics of the community. The "Law and You", It's a Privilege Not a Right" and domestic violence videos are available in English, Spanish, Hmong, Vietnamese, Laotian and Cambodian.

- 6 Robbery Prevention and 13 Landlord Tenant Training classes (conducted in English & Spanish) were completed in 2007.
- Community Services Division personnel have taken on the challenge of educating the public regarding the WeTIP Program. WeTIP information pamphlets will be provided along with every crime prevention presentation (English/Spanish) as well as a brief synopsis of the program's benefits to the community in fighting crime.
- Recruited 13 new police auxiliaries and 11 new police explorers.
- Graduated 44 students from the Citizen Youth Academy's two-week training program.
- Created the School Resource Officer Program, serving Bradley Tech High School and Custer High School, which has had a profound reduction in calls for service.

Personnel Division

Dalarie Williams
Personnel Administrator

The Personnel Division is responsible for the administration of personnel, ensuring that the provisions of various labor contracts covering Department members are complied with, and other duties as may be prescribed by the Chief of Police. The Division is comprised of the Medical Section and Payroll Section. The following are some of Personnel's accomplishments in 2007:

- Processed 88 promotions.
- Facilitated 40 Applicant Review Committees for both civilian and officer positions. The timely process of the Applicant Review Committees for police officer positions allowed the Department to successfully fill three recruit classes for 2007.
- Coordinated and participated in the selection processes for Garage

Attendant, Accounting Assistant, Systems Analyst Senior and Data Communications Specialist.

- Worked with the Labor Negotiator's Office in negotiating a successor contract with the Milwaukee Police Association (MPA) covering the period of January 1, 2007, ending December 31, 2009.
- Processed over 50 Certification of Academic Degrees and Credits
- Processed over 200 record requests and employment verifications.
- Conducted over 100 Office Assistant interviews.
- Completed the selection process for the new Police Services Specialist Investigator positions, which resulted in hiring twenty individuals.
- Coordinated Custodial Worker II interviews and hired five candidates.

Medical Section

The Medical Section monitors the status of personnel on sick or injury leave and maintains medical records. In 2007, the section processed 7,070 sick and injured reports and 900 worker's compensation reports. It also reviewed and processed 750 requests for leave under the Family Medical Leave Act, as well as maternity, childrearing and unpaid medical leaves of absence. It also

was tasked with processing over 4,900 emergency detention reports along with 675 ambulance payments for the year.

Payroll Section

The Payroll Section oversees a \$150 million dollar budget and administers the pay for over 2,600 employees. In 2007, the personnel assigned to Payroll accomplished the following:

- Maintained accurate human resources data in the People Soft HRMS system. Developed new coding to track police hires and paid suspensions.
- Initiated and completed several salary and overtime audits for a savings of over \$50,000 to the MPD's salary and overtime accounts. Inclusive of the types of audits are:
 - Duplicate overtime cards
 - Pyramiding roll call with replacement
 - Pyramiding roll call with court
 - Pyramiding of out-of-shift and extension of duty
 - Duplication of acting desk sergeant entries by locations
- Conducted three on-line time entry classes in December.
- Processed over 225 separations for retirements, resignations, leaves of absence, and other types of leaves. Processed 120 "buyouts" due to retirements, resignations, and dismissals.

Administration Bureau

- Processed over \$3,900,000 in "special pays" for certification, uniform, VSAP, uniform, and longevity.
- Facilitated the debut of electronic open enrollment in conjunction with

Information Technology Management Division and Employee Benefits Division, which enables members to not only sign up for health and dental insurance online, but also give the member access to view their personal and paycheck infor-

mation from their home computers.

- Audited retroactive pay increases for MPA and management employees.

Central Records Division

Anthony B. Hendricks
Captain of Police

The Central Records Division is responsible for the gathering and storage of all reports, correspondence, and other data as it relates to criminal activity. It is also responsible for maintaining all records relating to traffic accidents and administering compliance with the Wisconsin State Statutes relative to access to records in the custody of the Department. It is comprised of the Records Management Section, Open Records Section, and the Traffic Records Section.

Records Management Section

The Records Management Section is responsible for the daily functions of the Tiburon Automated Reporting System (ARS) and Records Management System (RMS). This system provides all Department members with immediate desktop access to all incident reports. The following are some of the accomplishments of the Record Management Section in 2007:

- Developed and instructed both an ARS refresher course and updated curriculum for Department members.
- 141,297 ARS reports were reviewed, approved and transferred into RMS by the personnel.
- A total of 28,856 reports, including stolen auto reports, auto recoveries and outside jurisdiction files, were entered into the Automated Reporting System.
- The Word Processing Unit transcribed 309,364 minutes of dictation for the Criminal Investigation Bureau.
- The Record Management Section processed 4,489 Missing Person records, 5,131 Medical Alerts, 1,024 Fire Reports, 803 Sudden Death Reports and 1,763 Sick and Injured Person Reports.
- The Imaging Unit further expanded the use of Intellivue to include 2007 Arrest Detention Reports (ADR's) and prisoner statements. These reports are now immediately available to all personnel at their desktop.

Open Records Section

The Open Records Section is responsible for the compilation, review and dissemination of Department records as mandated by the Wisconsin Statue Statutes pursuant to the Open Records Law. In 2007, the section

processed 31,083 requests resulting in the release of 136,009 records.

Traffic Records Section

In 2007, the Traffic Records Section provided courteous and prompt service to the public regarding all traffic and court procedures, including parking, traffic, municipal citations, information on the registration of vehicles, operator licenses and traffic law. This year, the section processed a total of 95,327 traffic citations. The TraCS Program, which was provided by Wisconsin Department of Transportation, was fully functioning in 2007, which allowed officers to electronically issue and process traffic citations. The Traffic Section received grant funding allowing the Motorcycle Unit to equip two cycles with computers and printers enabling them to use the TraCS system in the field. To date, 8,132 citations and 3,230 crash reports have been processed using this system.

TRAFFIC ACCIDENT SUMMARY			
CATEGORY	2005	2006	2007
Persons Killed	34	28	35
Persons Injured	6,167	6,459	6,353
Hit & Run Accidents	3,672	4,504	4,946
Fatal Accidents	30	33	34
Injury Accidents	4,145	4,301	4,388
PDO Accidents	11,735	8,837	9,892
Total Accidents	15,910	13,170	14,314

Administration Bureau

Communications Division

Andra E. Williams

Captain of Police

The Communications Division is responsible for providing prompt and proper han-

dling of all Department communications by telephone, teletype and other means. The Division is also responsible for dispatching squads and providing service to other city, county, state and federal emergency radio communications through the facilities of the Milwaukee Police Department. The following are some of the accomplishments of the Division in 2007:

- In 2007, the Communications Division handled 444,821 administrative calls and 325,351 emergency calls for a total of 770,172 calls.
- Refined the 4-digit squad numbering system and received approval for implementation.
- Implemented CLAR (Customer Location Alternate Routing) with AT&T and tested the system for reliability. CLAR is now available as a survivable phone system in the event of catastrophic failure of any of our major phone system components.
- Conducted divisional training for a class of 3 seasonal telecommunicators, 5 regular telecommunicators, and 4 dispatchers beginning on June 18, 2007.
- Initiated and implemented a sit-along program wherein recruits, new supervisors and detectives observe telecommunicators, dispatchers and supervisors for a one-day tour.

Data Services Division

Darryl Winston

Captain of Police

The Data Services Division is responsible for the effective and efficient management of the Department's data communications and information system. Personnel assigned to the division manage all Departmental computer produc-

tion systems and provide technical support to all Department members. In addition, Data Services provides technical computer interface support of MPD systems to the Federal Bureau of Investigation, National Crime Information Center, Wisconsin Crime Information Bureau, Department of Transportation and the Criminal Justice Information System. The following are some of the accomplishments of the Division in 2007:

- Implementation of a new Municipal Court Web based Warrant System, to all specified MPD remote locations.
- Designed and deployed an employee photo interface program to be used for the new Early Intervention Program in the Professional Performance Division.
- Facilitated the modification of Tiburon CAD files utilized in the MPD redistricting project new squad numbering system.
- Provided total support of and several link updates to the MPD Intranet/desktop applications utilized for field use.
- Created numerous statistical reports demanded by a variety of local and state requesters.
- Assisted in the implementation of a Tiburon CAD 2.3 upgrade, related to code tables, file configurations, mapping and work station set-up.
- Coordinated and deployed the workstation hardware necessary for the Community Video Pole Camera project.
- Upgraded and deployed several new PC workstations to all of the MPD remote locations.

Administration Bureau

Diana Rowe

Captain of Police

The Identification Division has three main areas of responsibility: the detection, preservation and collection of physical evidence; the analysis, evaluation and comparison of recovered evidence; and the maintenance of criminal history records. The following are some of the accomplishments of the division in 2007:

- An ultra light Alternate Light Source was

acquired to assist in scene processing and in the identification and recovery of biological evidence.

- A state-of-the-art Cyanoacrylate fuming chamber was obtained to improve the recovery of latent fingerprints on non-porous surfaces such as handguns and plastic bags.
- Latent Print Examiner Douglas KNUEPPEL received the 2007 Sagem Morpho User Award for outstanding contributions in the field of automated fingerprint identification.
- Image Ware Systems software was upgraded to Law Enforcement Suite to provide additional functionality in the capture, storage and retrieval of mug shot images.
- 16,407 calls for service were answered.
- 6,288 latent case files were created for evidence that was processed for friction ridge impressions.
- Fingerprint evidence was recovered in 2,949 of the 6,288 attempts.

Identification Division

- 1,471 persons were identified from the recovered latent impressions.
- The fingerprints of 37,259 arrested persons were processed and identified.
- The photo lab processed, entered and filed digital images for 24,746 incidents.
- 360 disputed municipal citations were compared, resulting in 236 instances in which someone other than a defendant in Municipal Court was identified with the help of a fingerprint on the citation.
- 3,621 persons were fingerprinted for licensing requirements
- The Document Section processed and examined 252 document cases including 64 handwriting cases and made 7 handwriting identifications.
- 1,004 digital and analog surveillance tapes were examined for evidentiary purposes.
- The Portable Video Unit was utilized on 365 occurrences to assist in the recovery of surveillance video.

Gordon Gregg

Buildings & Fleet Manager

The Facilities Services Division is responsible for providing maintenance of equipment and facilities, as well as the administration and record keeping associated with our vehicle fleet. The following are some of the division's accomplishments in 2007:

- In 2007, vehicle services outsourced many police vehicle set-ups, which generated a savings of \$80,000. The vehicles in the fleet also experienced a faster turn around time for the installation of light bars, prisoner conveyance seats, partitions, gunlocks, sirens, graphics, printers and video cameras.
- Six new Chevy Aveo's, which are fuel-efficient compact vehicles, were purchased in 2007. All new Fords that were purchased in 2007 are alternative fuel vehicles.
- In 2007, we were able to recover \$116,941.28. The total court ordered restitution for this same time period was \$302,245.28. The MPD was involved in over 240 court cases.
- In 2007, an energy audit of two of our larger facilities was conducted. The study and the recommended changes will

Facilities Services Division

- come from the Focus on Energy group, with intervention from the City's Department of Sustainability.
- Installation of a new energy efficient cooling system was completed at the District Six Police Station. The installation included computerized building controls allowing for environmental control from remote locations.
- Renovations were completed as a third phase of upgrading our evidence storage warehouse.
- Remodeling of the sixth floor in the Police Administration Building's east end was completed, and is now the new location for the Vice Control Division. Remodeling work was started on the west end, with asbestos abatement and re-spraying being completed, along with the installation of fire suppression, HVAC, electrical, and the mechanicals.

Patrol Bureau

Dale T. Schunk
Deputy Chief of Police
Patrol Bureau

David Vahl
Captain of Police

The Patrol Support Division consists of all the "specialists" in uniform. They are diverse in their functions and are deployed throughout the city, freeing up district personnel for other duties. The division focuses on seven specialties and made many accomplishments in 2007 including the following:

Accident Reconstruction Unit

- Conducted 35 fatal and 124 serious injury motor vehicle traffic accident investigations and reconstructions.
- Conducted follow-up investigation on 379 hit and run accidents, with a clearance / closure of 345 of those cases.
- Made seven court-ordered Operating Auto Intoxicated vehicle seizures.

THE PATROL BUREAU IS COMPRISED OF PLANNING AND OPERATIONS, THE SEVEN POLICE DISTRICTS, AND THE PATROL SUPPORT DIVISION. THE FUNCTION OF THE BUREAU IS TO PROVIDE FOR THE PRESERVATION OF PUBLIC PEACE, THE PROTECTION OF LIFE AND PROPERTY, THE DETECTION AND APPREHENSION OF PERSONS ENGAGING IN ILLEGAL ACTIVITY AND THE ENFORCEMENT OF ALL LAWS AND ORDINANCES.

Patrol Support

- Conducted crime scene diagramming and reconstruction for the Criminal Investigation Bureau at major crimes scenes using TopCon Total Station and forensic diagramming software.

Canine Unit

- Established a new Canine Unit, effective November 18, 2007, consisting of four police patrol canines.
- Initiated the acquisition of necessary training equipment, and instituted the related training program.

Harbor Patrol Unit

- Conducted 67 search-and-rescues
- Escorted disabled vessels to safe harbor, with an estimated total value of \$5.2 million.
- Issued 271 municipal boating violation citations.
- Placed into service a new 27' SeaArk patrol boat, purchased utilizing 2005 UASI Port Security grant funding.
- Improvements to the 2007 enforcement strategy and related activity facilitated a record State of Wisconsin DNR reimbursement of \$222,000.

Motorcycle Unit

- Performed 1,067 grant-funded hours of traffic mitigation related to the Marquette interchange reconstruction project.
- Ensured safe and efficient traffic flow at 137 special events such as ethnic festivals, run/walks, parades, etc.
- Staffed 820 daily events such as neigh-

borhood block parties, concerts, etc.

- Staffed 28 Traffic Enforcement Zones (EZ missions).
- Implemented Traffic And Criminal Software (TraCS) portable computer-based crash report and citation system.

Mounted Patrol Unit

- Conducted crowd control duties at large events.
- Conducted mounted patrols focused in the downtown, Marquette University, and Historic Third Ward neighborhood.
- Participated in community events, public relations, and police horse demonstrations.

Tactical Enforcement Unit

- Executed 550 search warrants for the Federal Bureau of Investigation, High Intensity Drug Unit, Criminal Intelligence Division, Vice Control Division, and District special cars.
- Conducted 14 full and limited unit deployments.
- Celebrated its 40th anniversary, as the longest serving SWAT team in the United States. In honoring this achievement, Mayor Tom Barrett proclaimed August 8, 2007 as Tactical Enforcement Unit Day.
- Implemented a Tactical Emergency Medical System (TEMS) team comprised of Milwaukee Fire Department paramedic officers who are attached to a TEU unit to deploy and render emer-

Patrol Bureau

and render emergency medical treatment during high-risk tactical operations.

- Co-hosted the National Tactical Officers Association (NTOA) conference with the Milwaukee County Sheriff's

Department attracting approximately 750 SWAT members from seven countries for specialized training.

Underwater Investigation Unit

- Maintained the unit's Med Dive certification for dive / rescue.

- Conducted a four-week search, recovery, and salvage operation involving six fatalities from a Medevac jet, which crashed into Lake Michigan on June 4, 2007.

District One

Michael P. Massa

Captain of Police

District One provides police service to the vital downtown area. The area is home to many commercial enterprises, government buildings and private residences. It has a large commuter population and is the cultur-

al magnet of arts and entertainment. The neighborhood has a reputation for being an extremely safe and friendly area within the City of Milwaukee.

In 2007, District One managed the Joint Investigative Tobacco Compliance Initiative, a citywide program in conjunction with the Milwaukee Health Department. This program has demonstrated great success in keeping cigarettes and other tobacco products from minors in the City of Milwaukee. Citywide 1,213 retailers were visited, resulting in 80 sales and a 6.6% tobacco access by minors rate. This was a 6.9% decrease from 2006.

Special intense enforcement of laws targeting neighborhood disorder in the downtown area were launched by District

One personnel. Several problem establishments were identified and targeted, with aggressive panhandling and loitering problems given a high priority.

The "new" District One was launched in November 2007. This major change more than doubled the territory and greatly increased the residential population of the District. Expansion also enlarged the mission of the District One, offering new challenges to our officers. The new district boundaries have necessitated the formation of a School Squad, an Anti-Gang Unit and a Tavern Enforcement Unit.

Patrol Bureau

District Two

Eduardo Negron
Captain of Police

District Two handled four large scale events with less problems than prior years, namely Cinco de Mayo, South Shore Water Frolics, Bay View Bash, and Mexican Independence Day. Cruising was almost non-existent during these events.

Nuisance abatement fielded several calls regarding problematic properties and all requests were investigated. A total of 24 letters were sent to property owners with notification and instructions regarding the nuisance property. District Two entered into a program partnering with faith based and

District Two

245 W. Lincoln Avenue, Milwaukee, WI 53207

community based organizations in order to address "open air drug markets".

District Three

James Harpole
Captain of Police

In 2007, District Three management focused on the organizational structure of the district, leadership building, geographic accountability, and problem-solving policing. District Three successfully implemented the Sector Command Program. This program assigned shift commanders 24-hour sector command duties and responsibilities related to analyzing crime, developing deployment strategies, attending community meetings and events and executing short-term missions.

Officers at District Three also implemented a homeless initiative. Officers assigned to the

Community Prosecution Unit conducted inspections throughout District Three in an effort to identify those areas most plagued by homeless issues. Community Prosecution Unit members established a relationship with the homeless organizations in an effort to reach out to the homeless in areas that they were creating problems and offer alternatives to outdoor living. This collaboration required officers to accompany workers from various organizations, such as health care for the homeless, to some very remote and potentially dangerous locations to identify and interact with homeless individuals.

Increased the number of neighborhoods participating in the District Three Neighborhood Walk Initiative during 2007 from 2 to 9. In addition, District Three implemented the Silent Summer Initiative, which focused on nuisance properties. Seventy-five properties were identified as being problematic, yet not qualifying for nuisance. Letters were sent to all landlords to meet with District Three personnel and Community Prosecution Team members to discuss the implementation of corrective action. This work, in conjunction with the Neighborhood Safety Initiative, reduced crime in the area.

District Three

2333 North 49th Street, Milwaukee, WI 53210

In addition to identifying several new gangs operating in District Three and the members of those gangs, the officers assigned to the District Three Anti-Gang Unit had the following activity:

- 595 city arrests
- 803 state arrests
- 126 drug loitering arrests
- \$50,706 of US currency recovered in drug related crimes
- 196 firearms seized
- 3,417 grams of marijuana recovered
- 80 grams of ecstasy recovered
- 460 grams of cocaine recovered

Patrol Bureau

Eric Moore
Captain of Police

District Four, located on the city's Northwest Side, covers 27.77 square miles, and has the largest geographic area of any Milwaukee police district. The most recent census determined that over 90,000 residents live within District Four's boundaries.

During 2007, as part of an on-going commitment to those that live, work, and recreate in the district, District Four performed a review of all of its opera-

tions, with the aim of identifying ways to make its delivery of police services more responsive to community needs, and more efficient in the utilization of district resources.

During the year, District Four's Community Liaison Officers increased the use of the district's innovative Nuisance Property Database. The database provides district police officers with ready access to the histories of properties that are connected to nuisance activity. The Community Liaison Officers also provided critical instruction to district police officers related to the City of Milwaukee's chronic nuisance premises ordinance, which resulted in a significant reduction in calls for service related to nuisance activity. In addition to their commendable work related to nuisance properties, the Community Liaison Officers organized the city's largest National Night Out event, in which over 500 citizens participated.

These partnerships have had tremendous strategic value with regard to the suppression of crime and the strengthening of the community.

During the year, District Four was actively involved in city's Common Ground Initiative that operates in the form of a consensus-building and action-oriented project, designed to address critical issues for improving and sustaining public safety, and also, a desirable quality of life for city residents.

District Four
6929 W. Silver Spring Dr., Milwaukee, WI 53218

Anthony Smith
Captain of Police

In 2007 the Block Watch Council of District 5 had their first National Night Out event. The event was organized and run by citizens who reside in District 5 and was attended by approximately 250 people. The event was a great success and 2008 is

expected to be another success. The District Five Community Prosecution Unit investigated 233 nuisance properties in 2007, which was a dramatic improvement over past efforts.

In collaboration with University of Wisconsin-Milwaukee Police Department, special patrols were initiated to deal with quality of life issues in the neighborhoods near the campus. During the 2007 deployments, there were over 800 arrests and citations issued.

The District Five Anti-Gang Unit conducted numerous Safe Street Initiatives targeting hot spots. These initiatives resulted in over 10,000 grams of illegal narcotics being seized along with over \$27,000 in illegal drug proceeds. They arrested 382 individuals and executed 15 search warrants as a result

of their investigations. During 2007, the intelligence gathering and analysis took place, which resulted in the location selected. Several months of undercover operations took place, which identified street level dealers within the Harambee North area. Numerous community meetings have taken place and will continue well into to the next year.

District Five
2920 North 4th Street, Milwaukee, WI 53212

Patrol Bureau

District Six

Gary Meyer
Captain of Police

In 2007, District Six Weed and Seed members were able to provide positive interaction with residents in the Historic Clarke Square area through foot and bicycle patrols. They met regularly with

residents, providing information regarding crime trends and crime prevention. This is part of a grant that was awarded in 2006.

District Six hosts monthly crime analysis meetings at various locations throughout the District to provide citizens with crime related information. The location is moved each month in an attempt to have citizens from all areas of the District attend. We provide a guest speaker each month to share various resources with the citizens in attendance.

District Six hosted its annual National Night Out on August 9th, 2007 at Clarke Square Park, with an attendance of approximately 1,000 citizens.

District Six established 19 new block watches during 2007.

District Six, in cooperation with the Weed and Seed project, held the first annual Violence Prevention Program for 5th Grade students at Longfellow Elementary School.

District Six

3006 South 27th Street, Milwaukee, WI 53215

District Seven

Donald Saglione
Captain of Police

Throughout the year, there were many notable efforts from members of the community to work with the Department to improve the quality of life for everyone. Among some of the efforts worth recognizing are the over

450 meetings and presentations attended by members of District Seven.

During a summer-long collaborative effort by Fox 6 and the Milwaukee Police Department, 35 new block watch groups were started in District Seven alone. The Fourth Annual Youth Leadership Conference was held in April and was attended by 420 middle school aged children. The conference featured workshops on drugs and alcohol abuse, peer mediation, sexual assault, as well as a myriad of other topics. This event proves its success as it continues to grow each year.

District Seven, along with Liberty Mutual Insurance and St. Joseph's Hospital, offered a program to 60 automobile owners to etch their vehicle's identification number onto the auto's

District Seven

3626 W. Fond Du Lac Ave., Milwaukee, WI 53216

windows. This crime prevention method is designed to help prevent a car from being stolen and to prevent the vehicle from being resold if stolen.

District Seven's auxiliary officers volunteered over 1,200 hours to the community throughout the year and were named the Auxiliary Unit of the year in April, 2007.

Criminal Investigation Bureau

Brian O'Keefe
Deputy Chief of Police

Edward Liebrecht
Inspector of Police

David Libolski
Captain of Police

Christopher Domagalski
Captain of Police

Michael Dubis
Captain of Police

THE CRIMINAL INVESTIGATION BUREAU IS COMPRISED OF THE HOMICIDE, CRIMES AGAINST PERSONS, CRIMES AGAINST PROPERTY, INTELLIGENCE, SENSITIVE CRIMES AND VICE CONTROL DIVISIONS. THE BUREAU INVESTIGATES AND MANAGES CRIMINAL CASES IN THE CITY OF MILWAUKEE.

Homicide Division

In 2007, the Homicide Division investigated 105 homicides. Of those homicides eighty-eight were cleared, which resulted in a clearance rate of 83.81%, up 12% from 2006. The Division continues to work cooperatively with the Milwaukee Homicide Review Commission to identify causal factors in homicides and prevent future offenses. In addition, an information brochure for families of homicide victims was published and introduced in 2007. This brochure was a key element in putting victim's families in touch with community resources as well as direct links to the detectives working their loved one's case.

In order to better navigate police related critical incidents, a set of Standard

Operating Instructions were developed for all Criminal Investigation Bureau personnel. These instructions assisted detectives in the investigative protocols related to police related critical incidents.

Recent advances in technology and forensic science have provided detectives with new tools to help with investigations. A new plotter was purchased enabling the printing of diagrams. Also, several members of the Division have attended seminars to further their knowledge of biological evidence and impart the knowledge gained to other members.

Crimes Against Persons Division

Darlene Jenkins
Captain of Police

During the year, the Violent Crimes Unit implemented a daily robbery/violent crimes briefing, which facilitated the exchange of valuable information and helped maintain continuity of investigations between detectives within the Criminal Investigation Bureau. A system was also developed, which facilitated the

ongoing exchange of information with surrounding jurisdictions regarding crime trends and suspect information. These additions helped the Milwaukee Police Department have the nation's highest clearance rate for bank robberies in a large city.

Criminal Investigation Bureau

Crimes Against Property Division

James C. Shepard
Captain of Police

A subsection of the Crimes Against Property is the High Technology Unit. Members of this section work with the FBI Cyber Crimes Task Force and the Internet Crimes Against Children Task Force. The High Technology Unit performs forensic examinations of computers, cell phones and other storage media. This

unit also conducts proactive investigations on-line, arresting those individuals who attempt to facilitate illegal contact with children. Forensic examinations have increased by over 100 in 2007 and are projected to continue to increase in 2008.

Another subsection is the Recovered Property Unit, which is responsible for the monitoring of secondhand dealer transactions to include pawnshops and scrap yards. The goal is the arrest and successful prosecution of those who use such establishments to sell stolen property. In 2007, there was a significant rise in price for scrap metals. This increase has translated into a rise in thefts and burglaries relating to scrap metal.

The monitoring of secondhand dealer transactions has resulted in the arrest of theft, burglary and robbery suspects, making this reporting requirement a

viable investigative tool.

The Auto Squad Unit conducted a variety of investigations relative to stolen vehicles and parts with the goal of arresting and successfully prosecuting those suspects involved. In an effort to combat auto theft, the Milwaukee Police Department has acquired a "Bait Car". The Bait Car will allow for GPS tracking as well as the video and audio recording of auto theft suspects.

The White Collar Crimes Unit investigates matters relating to fraud, forgery, worthless checks, identity theft and embezzlement occurring within the financial community. In recent years identity theft has increased in record numbers. This task force is responsible for the investigation of complex, multi-jurisdictional white-collar crimes.

Sensitive Crimes Division

Debra Davidoski
Captain of Police

The Sensitive Crimes Division is responsible for the investigation of sexual assaults, crimes against children, domestic violence related crimes and

truancy. The division continues to collaborate with many agencies such as The Child Protection Center, Sexual Assault Treatment Center, Sojourner Truth House, Bureau of Milwaukee Child Welfare and others to keep lines of communication open and improve service to victims and families.

In addition, the Sensitive Crimes Division initiated a Directed Patrol Mission for a serial rapist in District Three. This collaboration led to the apprehension and prosecution of a rapist who was found to be connected to nine sexual assaults.

Also in 2007, evidence was submitted on cold cases resulting in 28 "cold hits"

on suspects. This allowed the presentation of cases for prosecution and helped the victims bring closure to an adverse part of their lives.

The Division also organized twenty four hours of "stepwise" interview training for 80 detectives and 6 police officers to help them better interview child victims and witnesses. We also began working toward the development of a SART (Sexual Assault Response Team). This effort would bring medical, advocacy and law enforcement services to a victim in a collaborative manner to streamline the process of reporting sexual assaults and receiving follow up care regarding them.

Criminal Investigation Bureau

Michael D. Young
Captain of Police

Timothy Burkee
Captain of Police

Gregory Habeck
Captain of Police

The HIDTA program partners the Milwaukee Police Department with other local, state and federal law enforcement

Intelligence Division

2007 was a successful year for the Intelligence Division. For the fourth-straight year the Intelligence Division seized the largest amount of guns, totaling 399. In addition, in collaboration with the community prosecutors at each of the District Stations, Intelligence Division personnel obtained 350 search warrants, which was an increase of 26.81% from 2006.

A long-term investigation involving Asian gangs was commenced in 2007. Numerous arrests were made and several guns were seized which lead to a significant drop in violent crimes involving

Asian gang members in the City of Milwaukee.

A joint effort between the district personnel and the Intelligence Division resulted in the investigation of a graffiti crew known as the WR Crew. This investigation lead to several search warrants, arrests, felony charges and the elimination of the crew itself. In addition, the Intelligence Division uncovered a large-scale burglary and fencing operation, which was being operated by the Latin King gang on the south side of Milwaukee.

Vice Control Division

The Vice Control Division consists of the following units: Interdiction Unit, Nuisance Abatement Unit, Major Case Unit, Rapid Enforcement Drug Operations, Gambling/Prostitution Unit and Human Trafficking Unit.

In 2007, the Interdiction Unit, after a long-term investigation, diverted pain narcotics which resulted in a John Doe investigation and greatly impacted the lack of availability of Oxycotin. Another long-term investigation lead to seizure of over ten kilograms of cocaine.

In 2007, the REDO Unit assisted in the Highpoint Initiative, which was specifically established to combat open-air drug trafficking in District Five. As a result, approximately 23 criminal cases were presented for prosecution.

The Vice Control Division implemented the ACISS database for their case management. All complaints and investigations are logged and managed with this electronic database, which helps the investigators manage the numerous complaints and cases, that come into the Vice Control Division.

HIDTA (High Intensity Drug Trafficking Area) MMDEG (Milwaukee Metropolitan Drug Enforcement Group)

agencies to work together on anti-drug and gang task forces. This coordinated approach has resulted in the disruption and dismantling of targeted organized drug gangs. Intelligence sharing and technology are the cornerstones of this program.

Another grant funded anti-drug program is the Milwaukee Metropolitan Drug Enforcement Group (MMDEG). The Milwaukee Police Department partners with suburban police departments to investigate mid-level drug trafficking.

MMDEG investigations are coordinated with HIDTA investigations to leverage the resources each program contributes.

Through these resources and by working closely with the prosecutors from the Milwaukee County District Attorney's Office and United States Attorney's Office, the Milwaukee Police Department is committed to reduce the availability of illegal drugs and reduce drug related crime in the City of Milwaukee.
